

Kinetix Medicine Brings Neurolyser XR to British Columbia, Expanding Access to Incision-Free Pain Treatment in Vancouver

First patients to be treated August 26th, Media Welcome

VANCOUVER, BRITISH COLUMBIA (CA), CANADA, August 20, 2026 /EINPresswire.com/ -- [Kinetix Medicine](#) Brings [Neurolyser XR](#) to British Columbia, Expanding Access to Incision-Free Pain Treatment in Vancouver

[FUSMobile](#) Inc. is pleased to announce that Kinetix Medicine co-founded by **Dr. Sanjiv (Sonny) Bhalla**, **Dr. Case Van Wyngaarden**, and **Dr. Darren Gray**, has purchased the first **Neurolyser XR®** system in the Vancouver metropolitan area. Installation of the system is scheduled for **August 2026**, with the **first patient treatments beginning on August 26, 2026**.

The acquisition of the Neurolyser XR represents a significant investment in expanding access to advanced, incision-free pain treatment for patients throughout British Columbia. The Neurolyser XR utilizes high-intensity focused ultrasound (HIFU) guided by fluoroscopy to provide a completely non-invasive treatment option for chronic lumbar facet joint pain, offering an innovative alternative to conventional radiofrequency ablation.

"This is an evidence-based treatment that is Health Canada approved and FDA approved," said Dr. Bhalla.

Kinetix Medicine has earned a reputation as one of British Columbia's leading multidisciplinary musculoskeletal and interventional pain practices, bringing together expertise in diagnostic imaging, interventional radiology, physiatry, regenerative medicine, and advanced pain management. Under the leadership of its co-founders, the clinic has consistently embraced technologies that improve patient outcomes while minimizing invasiveness.

"We are delighted to welcome Dr. Sanjiv Bhalla, Dr. Case Van Wyngaarden, Dr. Darren Gray, and the entire Kinetix Medicine team to the growing Neurolyser family," said ****Arik Hananel, MD, Chief Executive Officer of FUSMobile Inc.**** "Their decision to bring Neurolyser XR to Vancouver reflects their commitment to providing patients with the most advanced treatment options available. As respected leaders in musculoskeletal and interventional medicine, they are ideally positioned to introduce this groundbreaking technology to patients across British Columbia."

****Ron Aginsky, Co-founder of FUSMobile Inc., added,**** "The installation at Kinetix Medicine is another important step in expanding access to Neurolyser XR across North America. Our goal has always been to make focused ultrasound pain treatment available through outstanding clinical partners who share our commitment to innovation and patient care. Kinetix Medicine is exactly that kind of partner, and we are excited to support their team as they bring this technology to patients in Vancouver and throughout Western Canada."

Dr. Bhalla said, "At Kinetix Medicine, we are continually evaluating technologies that improve patient outcomes while reducing procedural burden. Neurolyser XR represents an exciting advancement in the treatment of chronic spinal pain, and we look forward to offering this innovative, non-invasive therapy to our patients."

Dr. Van Wyngaarden added, "Our goal has always been to provide patients with access to the most advanced evidence-based treatments available. The addition of Neurolyser XR expands our ability to offer effective, incision-free pain management and reinforces Kinetix Medicine's commitment to clinical innovation."

The Vancouver installation further expands the growing network of Neurolyser XR systems across North America and internationally. With commercial installations now spanning more than ten countries, including Canada and the United States, FUSMobile continues to advance the adoption of focused ultrasound as the next generation of image-guided pain therapy.

**About FUSMobile Inc.**

FUSMobile Inc. develops innovative high-intensity focused ultrasound (HIFU) technologies that enable physicians to treat chronic pain without incisions or needles. The company's Neurolyser XR system combines focused ultrasound with fluoroscopic guidance to deliver precise, non-invasive treatment for patients suffering from chronic musculoskeletal pain.

**About Kinetix Medicine**

For the past 10 years, Kinetix Medicine has been one of British Columbia's premier musculoskeletal and interventional pain management practices, serving patients from Vancouver and throughout Western Canada and the United States. The clinic has a team of subspecialty pain management experts offering advanced interventional pain management,

high-level spinal intervention, and regenerative medicine, focusing on evidence-based, minimally invasive treatments and cutting-edge technologies that help patients return to active, pain-free lives.
