

Carets Corporation Announces Exploration of Strategic Alternatives

SALT LAKE CITY, UT, UNITED STATES, August 24, 2026 /EINPresswire.com/ -- FOR IMMEDIATE RELEASE

Carets Corporation Announces Exploration of Strategic Alternatives

Salt Lake City, UT, August 24, 2026 – Carets is a U.S.-based short-form video platform for individuals, influencers, and companies. The Carets app is available on the [App Store](#) and [Google Play](#).

Strategic Acquisition Opportunities

Carets Corporation is exploring opportunities to sell the company. The Carets offering includes the Carets technology platform and portfolio of issued patents including U.S. Patent Nos. 10,623,801, 11,818,408, and 12,470,758. Carets is inviting inquiries from strategic and financial acquirers interested in accelerating the platform's growth.

About Carets Corporation

Carets Corporation, founded in 2021, is based in Salt Lake City, UT. The Carets platform is protected by the issued U.S. patents identified above, which cover the platform's video aggregation features. App users can upload, view, and share individual videos. Additionally, content creators can use the unique automated features to combine multiple short form videos from multiple app users. To enable this feature users can add a Caret, like a Hashtag, to automatically stitch multiple videos from multiple app users into a single consolidated video. These consolidated videos can also be synced in terms of both time and location. The integration of the ^Caret is part of the overall vision of crowdsourced video™ where app users contribute content to the app community for automated video aggregation.

Carets leverages AI to foster an authentic, engaging environment for users to engage content. Carets empowers users to produce high-quality videos effortlessly and connect content with other app users in meaningful ways.
