

South Sound Gamma Knife to Sponsor and Exhibit at Washington State Neurological Society's 22nd Annual Meeting

South Sound Gamma Knife will connect with neurological professionals and highlight Gamma Knife radiosurgery at the 2026 WSNS Annual Meeting.

TACOMA, WA, UNITED STATES, August 24, 2026 /EINPresswire.com/ -- [South Sound Gamma Knife at St. Joseph Medical Center](#) will participate as a sponsor and exhibitor at the [Washington State Neurological Society's \(WSNS\) 22nd Annual Meeting](#) on Friday, October 23, 2026, at Bell Harbor International Conference Center in Seattle.

“

We look forward to sharing more about Gamma Knife radiosurgery and learning alongside other neurological professionals from throughout the state.”

Herbert Wang, MD, Medical Director of South Sound Gamma Knife

As a sponsor and exhibitor, South Sound Gamma Knife will connect with neurologists and other neurological professionals from across Washington and share information about Gamma Knife® stereotactic radiosurgery and its role in treating select brain tumors and neurological conditions.

Located at St. Joseph Medical Center in Tacoma, South Sound Gamma Knife provides non-invasive stereotactic radiosurgery using the Leksell Gamma Knife Icon™. The center's multidisciplinary team includes neurosurgeons, radiation oncologists, radiation physicists, nurses, and other specialists who work together to provide individualized treatment for each patient.

Gamma Knife radiosurgery can be used to treat a [range of conditions](#), including brain metastases, benign brain tumors, pituitary tumors, acoustic neuroma, trigeminal neuralgia, essential tremor, and arteriovenous malformations (AVMs).

“Participating in the WSNS Annual Meeting gives our team an important opportunity to connect with neurologists from across Washington and continue conversations about the treatment options available to their patients,” said Herbert Wang, MD, Medical Director of South Sound Gamma Knife. “We look forward to sharing more about Gamma Knife radiosurgery and learning

alongside other neurological professionals from throughout the state.”

The WSNS Annual Meeting brings together members of Washington’s neurological community for a day of education and professional collaboration. The 2026 program will cover topics including Alzheimer’s disease, ALS, headache medicine, clinical neurology, and artificial intelligence. Registration for the meeting is still open and is free for current, active WSNS members.

South Sound Gamma Knife encourages physicians and other neurological professionals attending the meeting to visit its exhibit to meet the team and to learn more about Gamma Knife treatment. For more information, visit www.southsoundgammaknife.com.
