

Modern Railing Co Offers Glass, Aluminum and Balcony Railing Installation

Modern Railing Co provides glass railings installation, aluminum railing installation and balcony railing installation across South Florida.

BOCA RATON, FL, UNITED STATES, August 22, 2026 /EINPresswire.com/ -- Modern Railing Co, a South Florida railing contractor, continues to install custom glass and aluminum railing systems for homes, condos, and commercial properties across Palm Beach, Broward, and Miami-Dade counties.

“

A railing should fit the property, not the other way around — that starts with getting the site conditions right.”

Modern Railing Co

Working from its Boca Raton office, Modern Railing Co begins every project by reviewing the property address, application, and site conditions, since factors such as coastal exposure, substrate type, and building or HOA requirements can all affect which railing system and mounting method fit a given space. All materials are kept in stock, with installation turnaround currently running two to three weeks depending on project scope.

[Glass Railings Installation](#)

For properties where sightlines and natural light are the priority, Modern Railing Co installs frameless, post-mounted, and standoff or fascia-mounted glass railing systems using tempered and laminated glass. Glass railings are a popular choice for stairs, balconies, terraces, and pool areas where preserving an open view matters most, and the company offers impact-rated laminated glass systems where wind and impact documentation is required in Miami-Dade and Broward's High-Velocity Hurricane Zone.

[Aluminum Railing Installation](#)

For property owners seeking a lower-maintenance option with more defined architectural lines,

Modern Railing Co installs aluminum railings in a range of finishes, including standard, black, and dark and light wood tones. Aluminum railings resist rust and corrosion, hold up well to South Florida's sun and salt exposure, and require less routine cleaning than glass, making them a common choice for coastal properties.

Balcony Railing Installation

Balconies present their own set of considerations, including slab edge condition, mounting method, wind exposure, and drainage. Modern Railing Co evaluates each of these factors before recommending a glass, aluminum, or combined railing system, and works with condo boards, property managers, and homeowners to navigate any building or HOA approval the project may require.

Modern Railing Co also provides stair and indoor railings, deck and outdoor railings, pool handrails and glass pool fences, custom railings, and railing repair and replacement services, along with free estimates for all projects.

About Modern Railing Co

Modern Railing Co is located at 980 North Federal Highway, Suite 110, in Boca Raton, FL, and serves residential, condo, and commercial properties throughout Palm Beach County, Broward County, and Miami-Dade County. The company specializes in glass and aluminum railing systems, including stainless steel, cable, and powder-coated aluminum options, for stairs, balconies, decks, and pool areas.

Property owners in South Florida seeking glass railings installation, aluminum railing installation, or balcony railing installation can request a free estimate by calling (561) 672-0717 or visiting modernrailingco.com.
