

TheGlassMat.com Launches Premium Tempered Glass Chair Mats

American-made 1/4-inch tempered glass chair mats now available direct-to-consumer — a lifetime alternative to plastic mats that crack and curl.

LOS ANGELES, CA, UNITED STATES, August 24, 2026 /EINPresswire.com/ -- TheGlassMat.com today announced the launch of its premium [tempered glass chair mat](#) collection, offering home office and commercial workspace professionals a permanent alternative to plastic and polycarbonate chair mats that crack, curl, and cloud over time.

A professional workspace featuring the TheGlassMat.com tempered glass chair mat — 1/4-inch American glass built to last a lifetime.

Unlike conventional chair mats made from thin plastic, TheGlassMat is crafted from 1/4-inch American tempered glass — the same material used in architectural and commercial applications — rated to support up to 1,000 lbs. Available in Ultra Clear and Bronze finishes, with seven sizes, three edge profiles, and multiple corner radius options, each mat is precision-configured to the customer's workspace.
