

Linkflow Capital Awarded OCBC Prestige Partner 2026 for Second Consecutive Year

The award recognizes Linkflow Capital's continued focus on credit file quality, responsible financing and long-term banking partnerships.

SINGAPORE, SINGAPORE, August 25, 2026 /EINPresswire.com/ -- Linkflow Capital, a Singapore SME financing consultancy, has been awarded OCBC Prestige Partner 2026, marking the second consecutive year the company has received the recognition after being named an OCBC Prestige Partner in 2025.

The Prestige Partner award recognizes selected partners for consistently achieving strong collaboration results with the bank.

For Linkflow Capital, the second consecutive award is particularly meaningful.

"Being a boutique team, we've never tried to compete by referring the highest possible volume of cases to banks," said Benjamin Teo, the Business Development Manager of Linkflow Capital. "Our focus has always been to understand our clients' business first, assess whether there is a genuine financing fit, and then put forward the case to the banks we believe are most suitable."

Linkflow Capital works with Singapore SMEs seeking business financing from banks and financial institutions. Its role includes assessing a company's financing requirements, financial position and credit profile before identifying potential financing options.

The company says its approach is centered on case quality and suitability rather than simply maximizing the number of applications submitted.

“Not every financing enquiry should become a loan application,” Teo added. “Sometimes the more useful advice is to wait, strengthen certain areas of the business, or structure a more suitable financing facility. We’ve always believed that planning financing properly creates better outcomes for both the SME and the banks.”

Linkflow Capital was founded in Singapore in 2012 and has worked with SMEs across a range of industries on business loans and working capital financing.

Over the years, the company has built working relationships with all major banks, financial institutions and non-bank funders in Singapore.

Receiving the OCBC Prestige Partner award in both 2025 and 2026 represents an important milestone for the company.

“To receive the Prestige Partner recognition for a second year is encouraging because it tells us that the way we’ve chosen to build the business is being recognized,” Teo said. “We’re grateful to the Emerging Business team at OCBC for the support and partnership, and to our SME clients who continue to trust us with their financing.”

Linkflow Capital intends to continue focusing on its core SME financing advisory and brokerage work while developing tools and resources to help Singapore businesses better understand their financing options before approaching lenders.
