SHENZHEN, BERLIN, NEW YORK,
CHINA, August 25, 2026

/EINPresswire.com/ -- [Shenzhen InnoX Academy](https://www.shenzheninnoxsz.com/) and XbotPark, operating an innovation ecosystem that has launched four publicly-listed companies and 12 unicorns, each valued at over \$1 billion USD – including DJI, the global leader in civilian drones and creative camera technology -- will introduce journalists to a new generation of 14 AI and hardware startups at [ShowStoppers®](https://www.showstoppers.com) @ IFA 2026 <https://www.showstoppers.com>.

Dubbed a “Chinese Y Combinator” by Forbes, Shenzhen InnoX Academy <https://en.innoxsz.com/>, and XbotPark, <https://www.xbotpark.com/en/>, integrate an ecosystem of education, incubation, manufacturing, supply chain, and venture capital, building on founder and professor Li Zexiang’s track record of incubating more than 200 smart hardware companies -- and working with innovators to transform bold ideas from concept into market-ready, globally competitive products.

ShowStoppers is the official press event of IFA, <https://www.ifa-berlin.com>, the annual trade fair in Berlin, Germany, that celebrates more than 100 years of innovation and launches what comes next in home and consumer technologies. The tradeshow runs 4-8 September at the Messe Berlin Fairgrounds in Berlin.

ShowStoppers @ IFA 2026 is scheduled for 3 September, one day before IFA begins. The press event is sold out, with more than 130 companies planning to introduce new tech for work, home and play to more than 1,000 journalists, creators and industry analysts from 66 countries already registered to attend the press event.

At ShowStoppers, InnoX will introduce journalists to:

- Glyde from Shenzhen Kuaiku Innovation Information Technology Co. Ltd. -- the world’s first

Smart Auto-Fade Clipper, designed to help people with little or no barbering experience become their own barber at home.

- Ocjoy from Shenzhen Yuechi Innovation Technology Co. Ltd. launches its Air Streaming oral care device, an entirely new category for at-home oral hygiene. It precisely directs a blended fluid of air, water and microcrystal powder into hard-to-reach oral recesses to deliver full spectrum cleaning.
- RheoFit Co. Ltd. features the RheoFit A1 and debuts the second-generation A1 Lite, automatic massage rollers that turn traditional muscle recovery into a simpler, hands-free experience.
- Rootique Ltd. introduces the Rootique Duo, the world's first dedicated scalp application device designed to transform the daily treatment experience for millions of hair loss patients who rely on topical solutions.
- Under the PlantSenso brand, SoildTech Co. Ltd. makes plant growing easier and more enjoyable through innovative AI technologies.
- Takway AI Co. Ltd. gives Europe its first hands-on look at Sweekar, a palm-sized AI pocket pet that hatches from an egg and actually grows up, moving through four life stages while it forms its own personality from the way you treat it, remembers the moments you share, and once grown slips off through your pocket to live small adventures of its own.
- Xbrewlab Technologies Inc. introduces EverNitro, the industry's first cartridge-free nitro machine -- a culinary device that eliminates wasteful, single-use metal chargers, empowering coffee and cocktail enthusiasts to create endless, café-quality velvet foam with zero ongoing costs.

Based in Guangdong, XbotPark and its network of robotics and smart hardware hubs in Dongguan, Ningbo, Chongqing, Changzhou, Hong Kong and Beijing will introduce seven startups that showcase the breadth of China's growing AI, robotics, and smart hardware ecosystems:

- Arex from Nexo Technology – the first intelligent augmented reality dive mask, using a built-in dive computer that merges digital intelligence with the deep blue.
- From Bubbleflow Innovation Technology Development Chongqing Co. Ltd., the world's first immersive, spatial, wireless audio system, using AI hardware and software to intelligently sense space and movement and wrap audio around listeners.
- Cilix X, a portable 6-axis camera motion-control robot from Chongqing Yueqian Innovation Technology Co. Ltd. that enables creators to effortlessly master complex camera moves.
- Ningbo Lissome Innovation Technology Co. Ltd. shows the LISSOME R1, a next-generation

compact dishwasher combining a 28cm ultra-slim design, 15-minute cleaning, and powerful washing performance to transform everyday kitchen routines.

- Morpho Technologies Inc. brings industrial-grade UV printing to home studios. Designed for creators, makers and small businesses, the desktop platform easily sculpts vivid colors and rich 3D textures on over 2000 printable materials—from wood to leather.
- QIVIKA from Xingshi (Ningbo) Technology Co. Ltd. turns a smartphone into a smart scope for day and night exploration, making stargazing and birding accessible for everyone.
- Shenzhen Enhanced Power Technology Co. Ltd. shows Tenniix, the AI tennis coach that sees, adapts, and plays with you, combining AI vision and robotics to deliver a professional, personalized training experience anywhere.

About InnoX

Based in Shenzhen, China, InnoX was founded by Professor Zexiang Li, co-founder of successful tech companies, including Googol Tech, DJI and CiDi, building on his track record of incubating more than 200 smart hardware companies.

Since 2021, InnoX has attracted more than 19,000 applicants worldwide and supported over 1,000 entrepreneurs through its innovation programs and an international ecosystem that connects startups with global talent, investor resources, and access to over 1,600 suppliers and manufacturing partners.

About ShowStoppers

ShowStoppers events organize product launches, sneak previews and hands-on demonstrations of new tech for work, home and play.

Now in its 29th year, ShowStoppers (<https://www.showstoppers.com/>) is the global leader in producing press and business events across North America, Europe and Asia. Each event brings together established technology leaders, innovative growth companies and emerging startups to meet face-to-face for hands-on sneak previews, product launches and executive interviews with selected journalists, influencers, creators, industry and financial analysts, venture capitalists and business executives, to generate news coverage and product reviews, promote brand and open new markets.

To learn more about how you and your company can meet the press at ShowStoppers press events contact Gracie Cheng, <mailto:gracie@showstoppers.com>; Lauren Merel, <mailto:lauren@showstoppers.com>, +1 908-692-6068, or Dave Leon, <mailto:dave@showstoppers.com>, +1 845-821-6123.

Attendance for journalists is by invitation. For information visit <https://www.showstoppers.com> or Steve Leon, <mailto:sl@showstoppers.com>.
