

Herman Aesthetiques Now Offers In-Office Liposuction

Liposuction in the office under local anesthesia now available in the Philadelphia area by renowned plastic surgeon Dr. Charles Herman

BLUE BELL, PA, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- Herman Aesthetiques is happy to announce that in-office [liposuction](#) is now available in the Greater Philadelphia area. Using local anesthesia, liposuction can effectively and safely be performed on several body areas including the neck, abdomen, hips, thighs and arms. Herman Aesthetiques is a leading cosmetic surgery center and medspa in Blue Bell, PA, serving the Greater Philadelphia Area, including the Main Line, Montgomery County, Bucks County, the Lehigh Valley, and the Poconos. Led by award-winning plastic surgeon Charles K. Herman, M.D., Herman Aesthetiques is a modern, luxurious facility easily accessible from the Pennsylvania Turnpike.

Liposuction involves the removal of fat from various parts of the body using specialized tubes, or cannulas, designed for this purpose. Herman Aesthetiques now offers safe, modern liposuction techniques in the office to allow removal of fat from selected

Liposuction of thighs

Liposuction of abdomen

parts of the body, especially suited for patients looking for improvement in the contour of regions of the abdomen, hips, “love handles”, and neck, and looking to avoid undergoing general anesthesia.

Dr. Charles Herman brings over 20 years of experience as a leading cosmetic surgeon on New York’s Park Avenue and Fifth Avenue, and in Northeastern Pennsylvania to the Philadelphia Area. Recognized for both clinical excellence as well as academic leadership, he has been the recipient of awards from such prestigious authorities as Castle Connolly, US News and World Report, British Medical Association, American College of Physicians, and Vitals.com. He has been featured on the Discovery Channel and Learning Channel as well as recently interviewed for his expertise on eyelid surgery, known as blepharoplasty, by TIME Magazine. Dr. Herman has edited four major plastic surgery textbooks. His textbook on [body contouring](#) won a national book prize from the American Publishers Association. An innovator as well as a practitioner, Dr. Herman has helped bring many new technologies and techniques into research and clinical practice, including those used in infection reduction, breast implant materials, artificial intelligence-powered algorithms used for patient monitoring, and in body contouring for patients who have had massive weight loss from bariatric surgery or weight loss medications.
