

Babylon Dental Care Hosts Annual Care Day, Providing Free Dental Care to Long Islanders in Need

WEST BABYLON, NY, UNITED STATES, August 24, 2026 /EINPresswire.com/ -- [Babylon Dental Care](#) will host its annual [Care Day](#) on Sunday, October 25, 2026, at its West Babylon location, providing complimentary dental care to the first 100 patients beginning at 9:00 a.m. The event is dedicated to serving individuals who are uninsured, underinsured, or facing financial barriers that have prevented them from receiving the dental care they need.

Access to dental care is essential to overall health, yet many individuals delay treatment because of financial hardship, lack of insurance, or dental anxiety. Care Day was created to help remove these barriers by providing necessary dental services in a compassionate, welcoming environment where patients can feel heard, supported, and cared for. Through clear communication, education, and a patient-centered approach, the Babylon Dental Care team works to help ease fears and make dental care feel more comfortable and approachable for every patient.

On Care Day, Babylon Dental Care's team of doctors, hygienists, dental assistants, and administrative staff volunteer their time to provide care for members of the Long Island community. The event reflects the practice's longstanding belief that quality dental care should

be accessible to everyone and its ongoing commitment to serving the community beyond the walls of the practice.

"Care Day is one of the most meaningful days of the year for our team because it reflects why we do what we do," said Jenn Brown, Chief Operating Officer.

"We believe everyone deserves access to compassionate, high-quality dental care. By opening our doors to those who may not otherwise have the opportunity to receive treatment, we're able to make a meaningful difference—one patient, one smile, and one family at a time."

Since the start, Care Day has provided thousands of dollars in donated dental services while helping hundreds of Long Islanders receive essential care they may have otherwise postponed. Beyond addressing immediate dental needs, the event aims to improve long-term oral health, restore confidence, and connect patients with the resources they need to continue caring for their smiles.

Patients will be seen on a first-come, first-served basis, with the first 100 patients arriving at Babylon Dental Care's West Babylon office receiving complimentary dental services, no insurance or appointment is required. Doors will open at 9:00 a.m., and attendees are encouraged to arrive early.
