“

We’ve always taken to heart the impact that involvement in communities can have in making life more liveable, and partnering with Home for a Home is a wonderful way for us to help that cause”

Kimberly Sutherland

provider of community association management services nationwide, is proud to announce its partnership with [Home For A Home](#), a nonprofit organization dedicated to providing safe, stable housing for families in Guatemala. Through this partnership, Westward360 will contribute a portion of the proceeds from every closing its team supports through the program. These contributions are expected to provide Home for a Home with critical funds to support their organization and mission, potentially funding the construction of at least two new homes per year.

“We’ve always taken to heart the impact that involvement

in communities, both home and abroad, can have in making life more liveable, and partnering with Home for a Home is a wonderful way for us to help that cause,” says President Kimberly Sutherland. “Westward360 is excited to help Home for a Home’s mission of getting basic necessities to under served communities, and improving the quality of life in any way we can.”

About Home For A Home

Founded in 2012, Home For A Home is a US-based 501(c)(3) nonprofit organization built on the belief that a safe, solid home can be a catalyst for meaningful and positive change. More than one million people in Guatemala live below the poverty line, and many lack access to clean water, basic sanitation and adequate housing. Since its founding, Home For A Home has invested nearly \$1 million in housing solutions—including earthquake-resistant concrete-block homes, clean-burning wood stoves and water filters—benefiting more than 500 families throughout Guatemala.

These improvements can have a profound effect on families and communities. Access to clean water helps prevent waterborne illnesses, while replacing dirt floors with concrete supports

better health and cognitive development in children. Clean-burning stoves reduce indoor smoke particles by as much as 98% while also lowering families' firewood expenses. By establishing safe, permanent homes, families gain a stronger foundation on which to build healthier and more secure futures.

"We are grateful for our new partnership with Westward360," states Home for a Home Board President, Josh Le. "It's incredible to see the impact we can create with others whose missions are so aligned with ours. We look forward to building more positive change and continue turning hope into homes for the children and families in Guatemala with Westward360."

Westward360's Commitment

Westward360's partnership with Home For A Home turns everyday real estate transactions into opportunities to help families in need. For every qualifying closing supported by the Westward360 team, a portion of the proceeds will go directly toward constructing a home for a family in Guatemala.

Based on the planned contribution schedule, Westward360's support will help provide funding for potential two new homes annually.

How to Get Involved

The cost to build a home through Home For A Home is approximately \$3,500, which means contributions of any size can make a meaningful difference. Individuals and organizations can make a donation, establish a company sponsorship or explore other opportunities to support the organization.
