

VAI Named Winner in Three ERP Categories for Hardgoods, FoodTech and PharmaTech at the 2026 Global Tech Awards

Recognition highlights VAI's continued innovation in industry-specific technology solutions

RONKONKOMA, NY, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- [VAI](#), a leading developer of enterprise resource planning (ERP) software, has been named a Season 2 winner in three categories of the 2026 Global Tech Awards, earning recognition for Enterprise Resource Planning (ERP), PharmaTech, and FoodTech.

“

Our goal has always been to deliver technology that goes beyond basic ERP functionality and addresses the specific challenges our customers face every day.”

Joe Scioscia

Season 2 attracted submissions from 13 countries, highlighting the global reach of the Global Tech Awards and the breadth of innovation across today's technology landscape. Participants submitted entries across 40

technology categories spanning emerging and established fields, including artificial intelligence, fintech, healthtech, cloud technology, agritech, marine technology, legal technology, and sports technology.

Following a rigorous evaluation by industry experts, the Global Tech Awards recognized organizations and solutions demonstrating innovation, impact, and excellence within their respective fields. The Season 2 winners reflect the diverse ways technology is being applied to solve real-world challenges, improve business operations, enhance experiences, and drive meaningful transformation across industries.

“Season 2 demonstrates the extraordinary diversity and global nature of today's technology ecosystem,” said Sirisha Lanka, Managing Director of Global Tech Awards. “We were honored to receive submissions from 13 countries and see organizations innovating across 40 distinct technology categories. The winners represent the creativity, ambition, and technological excellence that continue to drive meaningful transformation across industries.”

The recognition underscores VAI's commitment to delivering industry-specific ERP technology

that helps distributors and manufacturers modernize operations, strengthen supply chain performance, and navigate increasingly complex business and regulatory requirements. VAI's three Season 2 wins also highlight the breadth of its S2K Enterprise ERP platform and its ability to address the distinct operational demands of diverse industries.

Enterprise ERP for Distribution and Manufacturing

At the core of VAI's technology portfolio, S2K Enterprise delivers scalable, industry-tailored ERP capabilities for hardgoods distributors and manufacturers. The platform brings together automation, advanced analytics, supply chain optimization, and secure cloud technology to help organizations modernize operations and adapt to changing business demands.

Industry ERP Without Limits

[Food ERP](#) for Complex Distribution and Manufacturing Operations

VAI's Food ERP provides an end-to-end platform designed for the specialized needs of food distributors and manufacturers. Combining automation, traceability, sustainability capabilities, and advanced analytics, the solution helps organizations improve inventory management, increase operational visibility, strengthen compliance, and make more informed decisions. Industry-specific functionality enables food companies to streamline processes across the supply chain while improving efficiency, accuracy, and responsiveness in an increasingly demanding market.

[Pharma ERP](#) for Regulatory and Supply Chain Complexity

VAI's Pharma ERP helps pharmaceutical distributors manage the operational and regulatory demands of the industry. The solution combines intelligent automation with integrated EPCIS capabilities for DSCSA serialization and traceability, along with industry-specific compliance tools. By connecting critical processes and data across the operation, VAI Pharma ERP helps organizations improve supply chain visibility, support regulatory requirements, and enhance operational efficiency.

VAI's industry-focused approach enables organizations to deploy ERP technology around the way they actually do business, providing the flexibility and functionality needed to improve productivity and support long-term growth.

“Being recognized in three distinct categories reflects the strength of our industry-focused approach to ERP,” said Joe Scioscia, executive vice president at VAI. “Our goal has always been to deliver technology that goes beyond basic ERP functionality and addresses the specific challenges our customers face every day. These awards recognize the innovation behind that approach and the value it brings to food, pharmaceutical, distribution, and manufacturing organizations.”

About The Global Tech Awards

The Global Tech Awards is a prestigious platform that recognizes and celebrates the very best in technology. With a focus on innovation, creativity, and excellence, the Global Tech Awards aims to identify and reward the most exceptional technology solutions and services from around the world. The awards are open to businesses, organizations, and individuals who are creating and delivering innovative technologies that are driving progress and shaping the future.
