

Next generation XLERATOR® cover is 100% recyclable and raises the standard for commercial restroom durability

New white nylon material offers improved resistance to graffiti, UV exposure, harsh restroom environments and most importantly, is 100% recyclable

EAST LONGMEADOW, MA, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- [Excel Dryer, Inc.](#) has introduced a game-changing new 100% recyclable white nylon cover for XLERATOR® and XLERATOReco® Hand Dryers, engineered specifically for the toughest, high-traffic commercial restroom environments. The new white nylon covers feature a high-performance thermoplastic material that combines sustainability with exceptional durability, offering improved resistance to graffiti, UV exposure, dirt buildup and everyday wear while helping facilities maintain cleaner, more professional restrooms and reduce maintenance and replacement costs.

“Restrooms are a reflection of the overall customer experience, and high-traffic facilities need products that can keep up with constant use while continuing to look their best,” said William Gagnon, executive vice president and COO of Excel Dryer. “This innovative material raises the standard for restroom durability by combining superior performance, sustainability and long-lasting aesthetics.”

Replacing the previous white Bulk Molding Compound (BMC) cover option, the upgraded nylon covers are designed to withstand vandalism, environmental exposure and everyday wear. UV-protective properties help minimize discoloration and maintain color consistency, while the fire-retardant material supports the demanding requirements of commercial applications.

Cleanliness and hygiene continue to influence how consumers evaluate public spaces. Excel Dryer's [global survey](#) conducted with MetrixLab found that restroom cleanliness is a top priority for consumers, reinforcing the need for solutions that help facilities create a positive experience.

The 100% recyclable white nylon covers are now the standard white cover option for XLERATOR and XLERATOReco Hand Dryers, further advancing Excel Dryer's commitment to sustainable, durable and hygienic restroom solutions. To learn more about the new 100% recyclable cover, explore XLERATOR and XLERATOReco Hand Dryer options or find the right hand drying solution for your facility, visit [XLERATOR® high speed hand dryers](#).

Excel Dryer, Inc. has introduced a game-changing new 100% recyclable white nylon cover for XLERATOR® and XLERATOReco® Hand Dryers.
