

Startup365 Launches AI-Powered Ecosystem Beyond Demo Day

Startup365 connects founders with customers, investors, experts and partners through AI Matchmaking, plus a free iCapOS Capital Readiness Rating.

SAN FRANCISCO BAY AREA, CA, UNITED STATES, August 24, 2026
/EINPresswire.com/ -- Startup365 Launches AI-Powered Ecosystem Beyond Demo Day

From Demo Day to Opportunity Every Day — Startup365 connects founders with customers, capital, expertise, talent and partners year-round, with a free Capital Readiness Rating from iCapOS

STARTUP365: FROM DEMO DAY TO OPPORTUNITY EVERY DAY

“

Demo Day should create momentum, not end it. Startup365 uses AI Matchmaking to connect founders with the customers, capital, expertise, talent and partners they need to grow—every day.”

Matt Fok, CEO & Founder, AI X Network, Startup365

designed to help founders keep building relationships and opportunities long after accelerators, conferences and Demo Days end.

Powered by HybridEvent365 (HE365) and AI X Network, Startup365 connects entrepreneurs with the broader ecosystem they need to grow — including customers, investors, advisors, talent, service providers and strategic partners.

As part of the launch, participating founders can also access a FREE Capital Readiness Rating from iCapOS, a product of iCFO Capital Global, Inc., helping companies better understand their readiness and priorities before

investor outreach.

“Demo Day should create momentum — not mark the end of it,” said Matt Fok, Founder and

CEO of AI X Network. "Founders need customers, capital, expertise, talent and trusted relationships throughout the year. Startup365 is designed to help the right people and opportunities find one another when the need actually occurs."

From Demo Day to Opportunity Every Day

Accelerators, incubators and startup events create valuable introductions, but those connections are often concentrated around individual cohorts, programs and events.

When the program ends, founders may find themselves searching again for their next customer, investor, expert or strategic partner.

Startup365 extends that momentum into an always-on ecosystem.

From Demo Day to Opportunity Every Day.

DEMO DAY ENDS. OPPORTUNITY SHOULDN'T.

At the center is [AI Matchmaking](#), designed to help identify more relevant connections across:

Startups □ Customers □ Investors □ Experts □ Service Providers □ Partners

Core Startup365 capabilities include:

- AI Matchmaking based on participant needs and interests
- Always-on Startup Showcases and Virtual Booths
- Customer, investor and strategic-partner discovery
- Expert, advisor and service-provider connections
- Year-round accelerator, alumni and community engagement

The objective is not simply to create more introductions.

It is to help create more relevant relationships that can lead to action and opportunity.

Startups Need More Than Capital

Capital matters, but financing alone does not build a successful company.

Founders also need:

Customers + Capital + Expertise + Talent + Partners

Startup365 is designed around that broader startup journey.

For founders, it creates an always-on presence where potential customers, investors, experts and partners can continue discovering their companies.

For investors, Startup365 provides another way to discover relevant emerging companies and build relationships beyond a single pitch event.

For service providers and experts, AI Matchmaking can help surface startups whose current needs align with their expertise — creating a more relevant alternative to broad cold outreach.

For accelerators and startup organizations, Startup365 provides a way to keep founders, alumni, investors, mentors and partners connected beyond a cohort or Demo Day.

Start With Readiness: FREE Capital Readiness Rating From iCapOS

Before founders pursue more investor introductions, an important question is:

How ready are we?

Through Startup365, participating founders can access a FREE Capital Readiness Rating from

Startup365 connects founders, investors, customers, mentors, service providers and partners through one always-on startup ecosystem.

Startup365 combines AI Matchmaking, always-on showcases and a free iCapOS Capital Readiness Rating to help founders identify what they need next.

iCapOS.

iCapOS helps companies evaluate capital readiness and identify areas that may require attention before investor outreach. Its platform can also compare company profiles against investor mandate criteria such as sector, stage, check size and geography.

Together, iCapOS and Startup365 create a clearer pathway:

Readiness □ Priorities □ AI Matchmaking □ Connections □ Action

iCapOS helps founders understand their capital readiness. Startup365 helps connect them with the broader ecosystem they may need next.

“Founders are better positioned when they understand their readiness before beginning investor outreach. iCapOS helps companies identify what needs attention and improve their focus, while Startup365 expands the ecosystem around founders to include the relationships and resources required for growth.”

— Khris Thetsy, Founder & CEO, iCFO Capital Global

Helping Accelerators Keep Momentum Going

Startup365 is not designed to replace accelerators, incubators, universities or entrepreneurship organizations.

It is designed to help extend and connect the communities they already serve.

Accelerators invest significant time bringing together founders, investors, mentors, corporations and partners. Startup365 provides a way to keep those relationships active after a cohort graduates or Demo Day concludes.

Participating organizations can maintain their own brand, identity and community while adding:

AI Matchmaking

Always-on Startup Showcases

Smart referrals and opportunity discovery

Virtual Demo Days and programs

Year-round alumni engagement

Connections across a broader Network of Networks

Accelerators don't need another silo. They need a way to keep their ecosystem alive after Demo Day.

Startup365 is inviting accelerators, incubators, universities, economic development organizations and entrepreneurship communities to join forces and extend opportunity throughout the year.

A Network of Networks

Startup365 is powered by HybridEvent365 (HE365), the AI-powered event and community platform designed to transform one-time events into always-on communities.

Through the broader AI X Network, participating startup ecosystems can maintain their own identities while connecting people, knowledge and opportunities across trusted communities.

“The goal is not to build another startup directory,” Fok added. “The goal is to build an intelligent opportunity ecosystem where the right opportunity can find the right founder — and where relationships continue growing after the first introduction.”

Join Startup365

Startup365 welcomes founders, investors, accelerators, incubators, universities, advisors, service providers, corporate innovation teams and strategic partners.

Join the ecosystem. Find what you need next.
