

AGM PAD P3 Compact Delivers Outstanding Performance with MediaTek Helio G99 Chipset

AUSTIN, TX, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- AGM Mobile today emphasized the powerful performance of its AGM PAD P3 Compact, the ultra-rugged 8-inch tablet designed to deliver fast, reliable computing for both professional and outdoor use.

At the heart of the PAD P3 Compact is the MediaTek Helio G99 chipset, widely regarded as one of the best processors for efficient and stable 4G connectivity. Combined with 6 GB of RAM (expandable by an additional 6 GB of virtual RAM), the tablet achieves an impressive AnTuTu benchmark score of approximately 530,000. This makes the Helio G99 the strongest chipset currently available in the 8-inch rugged tablet segment, clearly outperforming competing devices in its class.

The P3 Compact delivers great performance

The P3 Compact main specifications at a glance

The high performance translates into smooth multitasking, responsive app loading, fluid 120 Hz display experience, and reliable operation even under demanding conditions. Whether handling on-site documentation, navigation, streaming, or productivity apps during a long workday or outdoor adventure, the PAD P3 Compact maintains consistent speed and efficiency.

"With the PAD P3 Compact we chose the MediaTek Helio G99 because it offers the ideal balance of strong performance, excellent 4G efficiency, and real-world reliability," said Karel Schillebeeckx, AGM Sales Director. "An AnTuTu score of around 530K and support for 6 GB + 6 GB virtual RAM put this tablet ahead of other 8-inch rugged devices on the market. Users get the power they need without sacrificing the slim, portable design they want."

In addition to its performance credentials, the PAD P3 Compact features an 8.68-inch HD display with 120 Hz refresh rate, a large 7200 mAh battery, 50 MP rear camera, and top-tier rugged protection with IP68, IP69K, and MIL-STD-810H certifications.

The AGM PAD P3 Compact is [available now](#). A special launch offer can be found exclusively on the official AGM Mobile website.
