

GenTwo Surpasses USD 8 Billion Mark for Assets under Service

Further Cements Position as Global Assetization Leader

ZURICH, SWITZERLAND, August 25, 2026 /EINPresswire.com/ -- GenTwo, the Swiss B2B fintech providing infrastructure for the creation of investment products, today announced that it has surpassed USD 8 billion in Assets under Service (AuS). The company reached the mark just months after crossing USD 7 billion in April 2026.

Pace of growth has tripled

GenTwo took more than five years to build its first USD 3 billion in assets under service. It added the next five billion in just over three. Today's milestone reflects both the strength of demand for GenTwo's assetization platform and the company's widening international footprint.

“

Each billion we cross is a measure of how easy it has become to create financial products.”

Philippe A. Naegeli, Co-Founder and CEO

Patrick Loepfe, Co-Founder and Chairman of GenTwo, commented: "We started GenTwo to democratize how investment products get made and expand the investment universe. We call this assetization, and we wrote a book about it because we believe it is a global mega trend. Our rapid growth proves this thesis. Assetization is becoming how the industry works."

Philippe A. Naegeli, Co-Founder and CEO of GenTwo, added: "The acceleration of our growth tells an important story. More asset managers, banks, and financial intermediaries are putting assetization at the center of what they do. Each billion we cross is a measure of how easy it has become to create financial products."

About GenTwo

GenTwo Surpasses USD 8 Billion Mark for Assets under Service, Further Cements Position as Global Assetization Leader

GenTwo is a Swiss B2B fintech providing infrastructure for the creation of investment products through its Securitization-as-a-Service model. It enables financial professionals to design and launch investment solutions with speed, flexibility, and capital efficiency. At the intersection of finance, technology, and data, GenTwo's platform, powered by investOS, allows asset managers, banks, and financial intermediaries to securitize and structure assets off-balance sheet, with low cost and reduced complexity. Since 2018, GenTwo has supported over 300 clients across 30 countries in creating more than 1,750 products, surpassing USD 8 billion in Assets under Service (AuS).
