

Interactive Dining Gains Momentum as Love Hibachi Serves 3,000+ U.S. Cities

Mobile hibachi reflects a broader shift toward live, personalized and shareable food experiences for private celebrations and corporate events.

LOS ANGELES, CA, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- As celebrations

“

Catering is becoming part of the entertainment. When guests watch the meal being prepared, interact with the chef and share the moment, dinner becomes part of the celebration.”

Tim, Love Hibachi

become more experience-driven, Love Hibachi is highlighting the rise of mobile hibachi as a catering format that combines freshly prepared food, live chef performance and guest interaction.

Unlike traditional drop-off catering or buffet service, at-home hibachi brings the chef and cooking experience directly to a private home, backyard, vacation property or event venue. Guests watch meals being prepared in real time while chefs turn the grill into a focal point for the gathering.

This combination of dining and entertainment is helping mobile hibachi fit a wide range of occasions, including birthdays, graduations, holiday celebrations, family gatherings, bachelorette parties, dinner parties, corporate events and weddings.

Love Hibachi says its service now covers more than 3,000 cities nationwide and is trusted by more than 100,000 clients. The company currently promotes mobile hibachi for 30+ event types, reflecting the flexibility of the format for both private celebrations and group events.

“Catering is becoming part of the entertainment,” said Tim of Love Hibachi. “When guests watch the meal being prepared, interact with the chef and share the moment, dinner becomes part of the celebration.”

The appeal is both practical and social. Instead of moving a group to a restaurant, hosts can bring a chef-led dining experience to the location they have already chosen. Love Hibachi chefs arrive ready to cook on-site, while hosts provide the tables, chairs, plates and utensils needed for the gathering.

The live format also creates natural moments for photos and short-form video. A burst of flame, a chef interaction or a table-wide reaction can become part of both the in-person experience and the content guests share afterward.

Love Hibachi currently lists service areas across California, Texas, Florida, Arizona, Georgia, Virginia, Illinois, Oregon and additional U.S. markets, with more cities continuing to launch.

The shift toward interactive dining reflects a broader change in what hosts may expect from catering: not only food that arrives at the event, but an experience that helps shape the event itself.
