

Before Summer Ends, Bring Home Birdfy's Award-Winning Bird Baths to Help Feathered Friends Stay Cool

Birdfy has created a collection of smart bird baths for feathered friends to stay cool.

LOS ANGELES, CA, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- As summer draws to a close, many birders and nature lovers still haven't found the perfect way to help backyard birds beat the heat. To this end, Birdfy, the leading brand in smart birding solutions, has created a collection of solar-powered smart bird baths where feathered friends can stay cool.

The Birdfy Bath Pro has become the perfect drinking and bathing spot for backyard birds.

With heat waves sweeping across the world, Birdfy's bird baths have become the ideal drinking and bathing spots for wild birds, providing refreshing water. Beyond turning your backyard into an oasis, these smart gadgets double as backyard documentarians, delivering immersive, splashy nature shows of wild birds.

Thanks to Birdfy AI, the devices identify 99% of backyard bird species, even down to their sexes. This advanced birding AI works as an intelligent birding companion, bringing the world of wild birds to every nature lover.

[Birdfy Bath Pro](#): An Award-Winning Smart 'Puddle' for Feathered Friends

To help feathered friends beat heat waves, Birdfy has released [the Birdfy Bath Pro](#), a solar-powered smart "puddle" tailored for birds of all sizes. On sweltering or warm summer days, it serves as the perfect spot for birds — whether for bathing, drinking, or simply splashing around.

Feathered friends can seek refuge in this bird bath, cooling off in the refreshing running water produced by its solar-powered fountain. The dynamic bathing experience is further enriched by five different water patterns. Avian friends benefit from the device's easy-to-clean design, gaining

access to water resources in a healthy, hygienic environment.

The Birdfy Bath Pro is also a fun addition to the backyard. With it, bird lovers can relish the ultimate birding experience. Its dual-lens camera offers both landscape and portrait views of feathered friends chilling out. The 2K auto-tracking portrait lens traces and zooms in on avian visitors, ensuring birders will never miss an enchanting moment. Birders can also replay riveting moments, featuring every flutter and splash, in slow motion.

This product has earned prestigious awards worldwide: a Special Mention on TIME's 2025 Best Inventions list and the CES 2026 Best of Innovation Award — the top CES award.

More Choices for Birds to Enjoy Late-Summer Water Activities

Birdfy offers other smart options from the bird bath product line. With different craftsmanship and designs, they also make the perfect cooling spots for wild birds in the summer heat.

Among them is the [Birdfy Birdbath Jolly V](#). This ground-level smart bird bath has gained popularity since its release last year. Preserving the signature features of Birdfy's bird bath collection, the Jolly V ensures that all feathered friends can enjoy splashy moments in the backyard. Tailored for birds of all sizes, the smart gadget offers shallow perches for small-sized avian visitors. Bringing it home means bird lovers grab the tickets to fun nature shows on their doorstep.

About Birdfy

Birdfy — a leading innovator in smart birdwatching gear and ecosystem — is dedicated to raising awareness of bird conservation. Catering to casual birders and birding enthusiasts, Birdfy offers a wide range of products, spanning smart bird feeders, birdhouses, bird baths, and innovative
