

Ricksoft, Inc. Achieves ISO 27001 Certification, Reinforcing Its Commitment to Information Security

MOUNTAIN VIEW, CA, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- [Ricksoft, Inc.](#), a leading provider of productivity and work management apps for Atlassian Jira and Confluence, today announced that it has achieved ISO 27001:2022 certification for its information security management system (ISMS). The certification was awarded by Prescient Security LLC and covers Ricksoft, Inc.'s organizational operations and management systems.

Ricksoft, Inc., achieves ISO 27001 certification

ISO 27001 is the internationally recognized standard for information security management. Certification confirms that Ricksoft, Inc. has implemented a systematic, risk-based approach to protecting the confidentiality, integrity, and availability of information, and that this approach has been independently audited and verified.

“

ISO 27001 certification isn't a marketing checkbox; it's a structured commitment to how we handle security across our entire organization, every day.”

Sean Osawa

“Our customers trust us with access to their Jira and Confluence environments, and that responsibility doesn't sit lightly with us,” said Sean Osawa, CEO of Ricksoft, Inc. “ISO 27001 certification isn't a marketing checkbox; it's a structured commitment to how we handle security across our entire organization, every day. This is something we did because it's the right way to operate.”

The certification covers Ricksoft, Inc.'s information security management system, including its policies, processes, and controls at the organizational level. While individual products are not themselves certified under this standard, they operate within and benefit from the security framework that this certification validates.

Customers and enterprise evaluators can view Ricksoft, Inc.'s security posture and request supporting documentation through the company's trust center.
