

Stunt X Mania Kicks into High Gear with Huge Summer Update

Get to grips with new arcade-style controls, haptic feedback and more!

LONDON, UNITED KINGDOM, August 25, 2026 /EINPresswire.com/ -- Continuing the success of its official launch in July, Stunt X Mania's ReVR Games is thrilled to announce the first major post-launch update for the VR motocross title, arriving on 27th August 2026. Adding fan-requested features and enhanced gameplay, the update further solidifies Stunt X Mania's place on Meta Quest as a premium motocross experience.

As all players know, getting that bike feel is super important, and to that end, ReVR Games has ensured that Stunt X Mania features hyper-realistic controls from the outset. But for those that just want to ride and perform tricks, the new arcade control scheme is for them. Instant input and accessibility make the bike easy and fun to handle. Once that's been mastered, full manual controls await.

Additionally, you want a bike to feel like a bike. Stunt X Mania now features advanced haptic feedback enabling players to experience every bump, jump and landing like never before. And to improve the immersion even further, new atmospheric and ambient sounds now fill the arenas. Hear the crowd come to life as you perform trick after trick.

But that's not all! Stunt X Mania is now bigger and better than ever, with a new map to explore, new ramps to trick off of, and more bike skins to further customise your ride.

“From the streets of India to virtual tracks around the world, Stunt X Mania is putting immersive racing on a global starting grid,” says Rohan Das, Chief Game Designer & Co-founder at ReVR Games. “Thanks to our latest update, this isn’t a bike racing game you play. It’s a bike racing experience you live.”

Stunt X Mania Summer Update Key Features:

Enhanced Haptics - Feel the bike and every bump and landing like never before!

New Controls - Arcade-style controls to make your motocross experience even simpler

New Content - A new map, bike skins and ramp further expand the SXM world

Immersive Sounds - You’re not alone in the arena; hear the crowds for the first time
