

Express Asphalt Solutions Launches Healthcare Facility Pavement Maintenance Program Across Florida

New program provides phased asphalt repairs, striping, sealcoating, and pavement planning designed around the demands of active Florida healthcare facilities

NEW PORT RICHEY, FL, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- Express Asphalt Solutions (EAS), a Florida-based commercial paving and parking-lot maintenance company, today announced the launch of its Healthcare Facility Pavement Maintenance Program. The program is designed to help hospitals, medical offices, urgent-care centers, outpatient facilities, and healthcare campuses maintain safe, accessible, and professional parking areas while minimizing disruption to daily operations.

“

Healthcare facilities cannot simply close their parking lots for repairs,”

Phil Bocook

Serving Tampa, Orlando, and communities throughout Florida, EAS provides customized pavement-maintenance plans that address the unique requirements of active healthcare properties. Services may include [asphalt repair](#), pothole repair, crack sealing, milling and resurfacing, sealcoating, parking-lot striping, ADA-accessibility markings, fire-lane markings, directional arrows, curb

painting, and traffic-control coordination.

“Healthcare facilities cannot simply close their parking lots for repairs,” said Phil Bocook, Owner of Express Asphalt Solutions. “Our program is built around careful planning, clear communication, and phased work schedules that help preserve access for patients, visitors, staff, and emergency vehicles while delivering durable, professional pavement improvements.”

The new program follows EAS's completion of more than \$2 million in parking-lot renovation work across three HCA Healthcare hospital properties during the past year. That experience reinforced the importance of managing pavement work around active operations, maintaining safe traffic flow, and coordinating each phase of a project with facility teams.

EAS works with healthcare property managers and facility teams to evaluate pavement conditions, prioritize repairs, plan projects around operating schedules, and help extend the useful life of asphalt surfaces. The company's approach combines immediate repair needs with long-term maintenance planning to help facilities reduce unexpected pavement issues and protect their exterior infrastructure investment.

About Express Asphalt Solutions

Express Asphalt Solutions is a Florida-based asphalt paving and maintenance company serving Tampa, Orlando, and communities statewide. For three years, the company has provided commercial asphalt paving, repairs, resurfacing, sealcoating, parking-lot striping, and pavement-maintenance services for businesses, property managers, contractors, and institutional facilities.
