“

A Tower Full of Cats has built a devoted following, holding a 99% Overwhelmingly Positive score across more than 1,300 Steam reviews. It finally lands on consoles for a larger player base.”

Alchemy Games

Overwhelmingly Positive score across more than 1,300 Steam reviews. That reception reflects years Devcats has spent refining the cozy hidden object formula, evident in every one of the game's 1,400+ hand-drawn cats and the historical scenes built around them.

A Tower Full of Cats unfolds at whatever pace a player brings to it, driven entirely by curiosity as they wander through centuries of history searching out cat after cat, with a soundtrack that shifts gently alongside them. It's built for decompression, the kind of game players reach

for after a long day, when what they want is something beautiful, relaxing, and endlessly satisfying to poke around in. At \$5.99, it's an easy addition to any console library.

About the Game

- 1,400+ Cats to Collect. Hunt down felines hidden across dozens of beautifully realized historical

eras, from ancient civilizations to the far future.

- Devcats-Level Polish. Every scene is hand-drawn and packed with detail, the reason players keep calling this one of the coziest, most carefully crafted hidden object games on Steam.
- Adaptive Soundtrack. A score that breathes with the action, made for long, unhurried sessions.
- Extra Items to Find. Bonus objects tucked into every scene reward players who slow down and look closely.
- Achievements to Unlock. A full set of console achievements to chase as the tower fills in.
- Just \$5.99. A low barrier to entry for one of Steam's best-reviewed cozy games.
