

PanTerra's Streams.AI Earns 12 Badges in G2's Fall 2026 Reports, Including Six New Ones

CA, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- PanTerra Networks announced today that its Streams.AI platform earned 12 badges in G2's Fall 2026 report release, six of them new, and qualified for 11 G2 reports it had not appeared in before. Streams.AI is now recognized in 30 G2 Fall 2026 reports spanning the UCaaS, VoIP, and Cloud PBX categories.

G2 is the world's largest software marketplace. Its badges are awarded from verified customer reviews, so a company cannot buy one, and a vendor cannot edit or remove the reviews behind it. The recognition reflects what customers report after they have deployed and run the platform.

Seven of the 12 badges point to the same part of the buying decision: how the platform installs, how it runs day to day, and what happens when a customer needs help. Streams.AI earned Easiest Setup, Easiest Admin, Easiest To Use, and Best Support recognition across the VoIP and Cloud PBX categories, alongside five High Performer badges.

G2 Fall 2026 Recognition

Easiest Admin | Usability Index for Cloud PBX Platforms, Fall 2026
Best Support | Small-Business Relationship Index for VoIP Providers, Fall 2026
High Performer | Small-Business Grid Report for VoIP Providers, Fall 2026
Easiest Admin | Small-Business Usability Index for VoIP Providers, Fall 2026
Easiest To Use | Small-Business Usability Index for VoIP Providers, Fall 2026

Badges Retained in G2's Fall 2026 Reports

High Performer | Grid Report for UCaaS Platforms, Fall 2026
High Performer | Small-Business Grid Report for UCaaS Platforms, Fall 2026
High Performer | Grid Report for Cloud PBX Platforms, Fall 2026
High Performer | Grid Report for VoIP Providers, Fall 2026
Easiest Admin | Usability Index for VoIP Providers, Fall 2026
Easiest Setup | Implementation Index for VoIP Providers, Fall 2026

Newly Qualified Reports

Streams.AI qualified for 11 G2 Fall 2026 reports for the first time. Four cover the Cloud PBX category, and seven cover how the platform performs for small-business buyers:

Cloud PBX Platforms, Fall 2026

Implementation Index

Usability Index

Relationship Index

Results Index

Small-Business Reports, Fall 2026

Small-Business Grid Report for VoIP Providers
Small-Business Usability Index for VoIP Providers
Small-Business Relationship Index for VoIP Providers
Small-Business Results Index for VoIP Providers
Small-Business Usability Index for UCaaS Platforms
Small-Business Implementation Index for UCaaS Platforms
Small-Business Results Index for UCaaS Platforms

Qualifying for a G2 report requires a minimum number of recent, verified reviews in that category. Appearing in 11 new reports at once means customers across a wider set of use cases are now reviewing the platform, including a substantial number at small and mid-sized organizations.

What This Means for Buyers

For IT and operations leaders comparing communications platforms, the categories matter as much as the badges. Cloud PBX, UCaaS, and VoIP describe three different ways of buying the same capability, and Streams.AI is now reviewed and recognized in all three. Buyers evaluating a phone system, a full communications platform, or a PBX replacement will find verified customer data on the same product.
