

Built to Last: Oracle NetSuite and FATE Continue a Longstanding Partnership at FATE 2026

Oracle NetSuite returns for the third consecutive year, building on a relationship that spans well beyond the expo floor.

NEW YORK, NY, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- Some partnerships begin with an event. The relationship between [Oracle NetSuite](#), [FATE](#), and the CFO Leadership Council (CFOLC) goes back much further.

This November, NetSuite will return as a Titanium Exhibitor at the Finance & Accounting Technology Expo (FATE) for the third consecutive year—continuing a partnership that has been part of FATE since the event's very beginning.

FATE 2026 takes place November 18–19 at the Javits Center in New York City, bringing together finance leaders, technology decision-makers, and leading solution providers for two concentrated days of technology discovery, practical education, and connection.

“

This event is a great opportunity to connect with the finance community, share insights, and explore how technology is shaping the future of finance.”

Kate Daniels, Head of Industry Partnerships at Oracle NetSuite

NetSuite's involvement with FATE grew naturally from its longstanding engagement with the CFO Leadership Council and its community of senior finance executives. When FATE launched three years ago as a dedicated environment for finance leaders to discover and evaluate technology, NetSuite was there from day one.

"We're excited to continue our partnership with the CFO

Leadership Council as a Titanium sponsor of the Finance & Accounting Technology Expo. At

NetSuite, we're focused on helping finance leaders increase efficiency, gain greater visibility into their businesses, and leverage new technologies to drive growth. This event is a great opportunity to connect with the finance community, share insights, and explore how technology is shaping the future of finance." — Kate Daniels, Head of Industry Partnerships at Oracle NetSuite

For more than 25 years, Oracle NetSuite has helped organizations grow, scale, and adapt to change. Today, NetSuite is used by more than 41,000 customers across 219 countries and dependent territories.

That breadth of experience aligns closely with what FATE was created to deliver: a more efficient way for finance leaders to understand a rapidly evolving technology market, compare approaches, ask deeper questions about scalability and integration, and see how technology can support the finance function today and into the future.

At FATE 2026, attendees will once again have the opportunity to connect directly with the NetSuite team on the expo floor, explore its technology, and have practical conversations about ERP, automation, AI, visibility, and the evolving role of technology across the finance organization.
