

Lifestyle Moving & Storage Expands Office and Commercial Relocation in NYC

Company adds dedicated move managers, after-hours scheduling and phased department relocations for offices working to minimize operational downtime.

NEW YORK, NY, UNITED STATES, August 25, 2026 /EINPresswire.com/ -- Lifestyle Moving &

“

An office move is judged on one thing — whether people can work on Monday. Everything else is logistics in service of that.”

Ivan Martinovic, Lifestyle Moving & Storage

Storage has expanded its commercial relocation operation in New York City, adding dedicated move management, after-hours scheduling and phased departmental moves for businesses that cannot afford to close for a day.

Office relocation in New York carries constraints that residential moves do not. Two buildings must be coordinated rather than one, each with its own freight elevator schedule, certificate of insurance requirements and security protocol. Most commercial buildings restrict

moving activity to evenings and weekends. Employees need working desks Monday morning regardless of what happened over the weekend.

The company's commercial process assigns a single move manager to each job from survey through sign-off. That manager conducts an on-site inventory, obtains building requirements from both managing agents, issues certificates of insurance, books freight elevator windows at origin and destination, and produces a labeled floor plan mapping every item to its destination workstation.

Moves are scheduled outside business hours by default. For larger relocations, the company runs phased departmental moves, relocating one team at a time across consecutive weekends so the business never goes fully offline.

Specific capabilities include workstation and cubicle disassembly and reassembly, IT equipment handling with anti-static wrapping and labeled cable management, server and network rack transport, secure file and records relocation with chain-of-custody documentation, conference room and executive furniture handling, and custom crating for artwork and reception fixtures.

The company also holds inventory in climate-controlled storage for businesses whose lease dates do not align, with itemized photo-tagged records and partial retrieval so a single item can

be pulled without unpacking a vault.

"An office move is judged on one thing — whether people can work on Monday," said Ivan Martinovic, Founder and Owner of Lifestyle Moving & Storage. "Everything else is logistics in service of that."

The expansion covers Manhattan, Brooklyn and Queens, including Midtown, the Financial District, Hudson Yards, Flatiron, Downtown Brooklyn, DUMBO and Long Island City. The company is licensed under USDOT 3652616, MC 1259586 and NYDOT T-41242, and provides certificates of insurance at no charge for buildings that require them.

Businesses can request a commercial survey and flat-rate estimate through the company website or by phone +1 646-535-4919.

About Lifestyle Moving & Storage:

Lifestyle Moving & Storage is a full-service moving and storage company based in New York City, operating with in-house crews across Manhattan, Brooklyn and Queens. The company handles commercial and office relocations, residential and apartment moving, long-distance moves, packing, white-glove service and climate-controlled storage, and is fully licensed and insured. Its offices are at 99 Hudson St, 5th Floor #7148, New York, NY 10013.
