BAIA BIANCA SUITES

A luxury retreat on Elba Island between quiet luxury, nature and tailor-made hospitality

MILAN, ITALY, August 27, 2026

/EINPresswire.com/ -- [Baia Bianca Suites](#) opens a new chapter in its history, confirming its position as one of the most exclusive destinations on [Elba Island](#). Located in the privileged setting of the Gulf of Biodola, one of the island's most iconic bays, the property is evolving into a high-end destination capable of combining

Mediterranean nature, contemporary design and an idea of intimate, discreet and personal luxury, where the concept of quiet luxury translates into an authentic and understated experience.

Baia Bianca Suites

Baia Bianca has its roots in the shared vision of Marc Bos and Lucilla Guarducci Bos, driven by a pursuit of excellence: to introduce to Elba Island a paradigm of hospitality, service and elegance capable of engaging with the world's most prestigious destinations, while preserving a deep and authentic connection with the local area and the regenerative cycles of the island's nature.

From the very beginning, the project was conceived as going far beyond the traditional concept of hospitality, taking shape as an exclusive retreat where guests can rediscover a dimension of quiet, wellbeing and absolute freedom: the same attitude towards quiet luxury that the founders wished to cultivate for their family and for every guest who crosses the threshold of the property.

Today, Edoardo Guarducci, together with his uncles Marc and Lucilla and his mother Raffaella, leads the evolution of the project, bringing an increasingly contemporary and international vision. The recent restyling, which involved the rooms, suites, new spaces such as The Lounge

and the outdoor areas, represents an important step in this direction, strengthening Baia Bianca's positioning as a high-end destination and a benchmark for refined and discreet hospitality.

More than a hotel, Baia Bianca is a retreat: a place designed for those who wish to slow down, step away from the pace of everyday life and rediscover a dimension of silence, privacy and complete tranquillity, where time once again becomes something to experience rather than chase: a form of quiet luxury that is best expressed through slow rhythms, the discreet nature of the experience and attention to detail.

Rooms and Suites

The recent renovation has redefined the hospitality experience with a precise choice: to prioritise quality, space and privacy. Today, Baia Bianca has 16 suites, in a configuration designed to offer larger spaces and a greater sense of intimacy. Some units have been combined to create new solutions such as the Romantic Suite, while the standard Suites have been completely renovated and enhanced with spacious outdoor terraces that become true living spaces throughout the day.

The aesthetic language has also evolved: white remains, but is warmed up, making room for natural woods and fine materials such as Lecce stone outdoors and Luna stone, sourced from French quarries, indoors. The result is that of a luxury home overlooking the sea, where every element is designed to make guests feel at ease, within a dimension of quiet luxury that prioritises comfort, materials and harmony of spaces.

The spacious and bright suites offer independent living areas, equipped outdoor spaces and, in some categories, dedicated wellness areas, for an even more immersive and private experience.

B.Bistrot, The Lounge and Beach Bar

The gastronomic experience reflects the same philosophy as the property: a natural balance between the local area and an international outlook. B.Bistrot, led by chef Giuseppe Brescia, offers contemporary cuisine based on local ingredients, particularly the island's fresh fish, developing dishes that combine tradition and research, with an open eye also towards international influences. The wine list follows the same approach, with a selection that highlights wines from Elba and the Tuscan Archipelago, alongside Italian and international labels, creating a complete and coherent wine journey. The offering is further enriched by pastry chef Milena Scolari, who creates a selection of desserts.

Alongside the bistro, The Lounge represents one of the main new features of this new chapter: also open to external guests, it is conceived as a meeting and evening conviviality space, a lively, elegant yet informal place to spend time over cocktails, music and atmosphere.

The beverage offering will be developed in collaboration with Il Locale Firenze, a cocktail bar

recognised among the best in the world and currently ranked 22nd in The World's 50 Best Bars, bringing to Baia Bianca a contemporary approach to mixology, strong technical research and an international vision of the bar experience.

Completing the offering, the Beach Bar, nestled between the pool and the sea, accompanies guests throughout the day with a more informal and continuous offering.

Also part of this journey is Amaro Aureo, a signature liqueur conceived by Edoardo in collaboration with internationally renowned bartenders and distillers, created through the infusion of herbs from Elba's Mediterranean scrubland, capable of capturing the island's aromas in a harmonious and authentic sensory experience.

Wellness

Baia Bianca is a place designed for rejuvenation, within a natural setting that naturally invites guests to slow down. The offering includes massages and personalised treatments, yoga and pilates on request, and new spaces dedicated to wellbeing, including a striking outdoor sauna overlooking the sea. More than a traditional wellness centre, Baia Bianca offers a broader approach: the true privilege is having the time to stop. This is where quiet luxury is fully experienced: slow rhythms, silence, and the freedom to choose how to spend the day. This dimension of relaxation is also possible for those travelling with their families: the kids' club allows younger guests to enjoy dedicated moments, giving adults the freedom to carve out time for tranquillity.

An [exclusive destination](#)

Baia Bianca Suites stands out for its clear positioning: offering an alternative to the more crowded destinations of international luxury, while maintaining the same level of quality in a more authentic and intimate setting.

A place designed for those seeking discretion, nature and a personal experience, where guests arrive to disconnect and often end up not wanting to leave.
