

Off Leash K9 Training Colorado Highlights Starter Training as an Introduction to Private and Board & Train Programs

One-Session Starter Training Gives Owners an Introduction to Training Methods Before Selecting a Larger Program

DENVER, CO, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- [Off Leash K9 Training Colorado](#) is highlighting its Starter Training program as an introductory option for dog owners who want to learn more about professional training methods before selecting a more extensive program. The service provides a private training session designed to introduce owners and their dogs to the training approach and help owners determine which type of training may best fit their needs.

A happy dog relaxes on an outdoor chair during a training session in Denver, Colorado.

Starter Training consists of one private lesson and includes professional instruction, an Off-Leash K9 Training e-collar, and a 15-foot training leash. The session provides owners with an opportunity to work directly with a trainer and become familiar with the training process and equipment used during instruction.

For owners who decide to continue with structured training, Off Leash K9 Training Colorado offers additional options that address different stages and training needs. [Basic Obedience Training](#) provides private instruction focused on foundational commands, while [Board & Train programs](#) provide more intensive training over a designated period.

The Basic Obedience program covers fundamental skills and commands used in everyday dog handling. Private instruction also allows owners to participate in the training process and learn how to reinforce the skills introduced during lessons.

Board & Train options provide another format for owners seeking a more intensive training experience. The Colorado operation offers a 1-Week Board & Train and a 2-Week Board & Train program, allowing owners to select a program based on their dog's training needs and training goals.

Starter Training can serve as an initial step for owners who are considering professional dog training but want to become familiar with the methods before committing to a longer program. The introductory session provides an opportunity to discuss training needs, experience the training approach firsthand, and consider whether private training or a Board & Train program is appropriate.

A dog practices focus and impulse control during an outdoor training session in Denver, Colorado.

“

An introductory lesson can give owners a clearer understanding of what professional training involves before they select a longer program.”

Derek McAllister, owner and lead trainer at Off-Leash K9 Training Denver

Dog owners interested in learning more about Starter Training, Basic Obedience, or Board & Train programs can schedule a free 30-minute consultation to discuss available training options and determine which service may be appropriate for their needs.
