

Webinar on the Remote Scanning Roadmap: Navigating MRI and CT Standards, Operations, and the Application Process

RadSite to host the virtual roundtable on Wednesday, September 2

ANNAPOLIS, MD, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- RadSite™, a leading accrediting organization, will host a complimentary webinar titled "The Remote Scanning Roadmap: Navigating MRI and CT Standards, Operations, and the Application Process."

The event will take place on Wednesday, September 2, from 1:00 to 2:00 p.m. ET.

[Click here to register for the webinar.](#)

The webinar will provide a practical, standards-based framework for designing, implementing, and operating remote MRI and CT scanning programs. Hospitals, health systems, and outpatient imaging centers are increasingly exploring remote scanning to address staffing constraints and extend access to imaging services across broader geographic areas. The panel will discuss how organizations can implement these models while maintaining quality, safety, and regulatory compliance.

The webinar will be moderated by Mark Hiatt, MD, MBA, MS, RadSite's Chief Medical Officer. Panelists will include:

- Samantha Davis, R.T.(R)(MR), Director of MRI, RadNet
- Laura Kassa, R.T.(R)(CT)(MR), President, RadXcel
- Kevin Oliver, R.T.(R)(MR)(ARRT), MRSO, Director of Innovation and Special Initiatives, SimonMed Imaging

“Successful remote scanning requires a coordinated approach that brings together technology, people, workflows, and quality oversight,” said Kassa. “Our goal is to give organizations practical guidance for building sustainable, compliant remote scanning services.”

Participants will learn how RadSite’s Remote Scanning Accreditation Standards shape the day-to-day operation and oversight of a remote scanning program. The panel will also guide participants through RadSite’s accreditation application and review process, highlight common readiness gaps, and explain how applicants can prepare the required documentation.

Laura Kassa, R.T. (R)(CT)(MR), President, RadXcel

“Remote scanning is changing how we think about where imaging expertise needs to be,” said Oliver. “The opportunity is to use that expertise across locations while maintaining the same expectations for quality and safety. RadSite’s new standards give the industry a framework for doing that, and this webinar gives us a chance to talk about how those standards translate into real-world MRI and CT operations.”

“

Successful remote scanning requires a coordinated approach that brings together technology, people, workflows, and quality oversight.”

• *Laura Kassa, R.T.(R)(CT)(MR),
President, RadXcel*

RadSite offers an innovative and cost-effective choice for accreditation. Its accreditation programs cover:

- CT Accreditation
- MRI Accreditation
- Nuclear Medicine and PET Accreditation
- Dental CBCT Accreditation
- Medical CBCT Accreditation
- Remote Scanning Accreditation

- Ultrasound Accreditation (under development)

About RadSite™
(www.RadSiteQuality.com)

Founded in 2005, RadSite promotes quality-based practices for imaging systems across the United States and its territories. Today, RadSite offers six accreditation programs, including CT accreditation, MRI accreditation, Nuclear Medicine and PET accreditation, Dental CBCT accreditation, Medical CBCT accreditation, and Remote Scanning accreditation. RadSite is recognized by the Centers for Medicare & Medicaid Services as an official accreditation organization under the Medicare Improvements for Patients and Providers Act of 2008. It is also recognized by more than 350 payers and has accredited more than 2,000 imaging systems. RadSite's programs help assess, track, and report imaging trends to enhance imaging procedures and outcomes. The organization also offers educational programs, publishes issue briefs, and underwrites research on a complimentary basis to raise awareness of safety issues and promote best practices. RadSite is governed by an independent advisory board and committee system that is open to a broad range of volunteers to ensure transparency and accountability. To learn more, contact us at 443-440-6007 or info@radsitequality.com.
