

Off Leash K9 Training of Oklahoma Highlights Four-Week Board and Train Program for Advanced Obedience and Reliability

Immersive program builds basic and advanced obedience, real-world reliability, household manners, confidence, and impulse control for dogs six months and older.

OKLAHOMA CITY, OK, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- [Off Leash K9 Training of Oklahoma](#) is highlighting its [Four-Week Board and Train](#) program for dog owners seeking an extended training format focused on advanced obedience, impulse control, and practical reliability in everyday environments.

During the program, each dog stays full-time in a professional trainer's home and participates in four weeks of immersive, one-on-one training. The structured routine provides repeated practice and opportunities to develop obedience skills in different settings.

Training covers basic and advanced commands, including sit, down, place, come, heel, off, touch, and sit in motion. Dogs also practice around distractions in public environments and work on door manners, loading into a vehicle, household etiquette, confidence, and impulse control.

The Four-Week Board and Train is available for dogs at least six months old. It is intended for dogs struggling with reactivity, impulse control, or anxiety, as well as owners seeking behavior change beyond basic obedience.

Owners receive daily photographs or videos so they can follow their dog's progress during training. The program also includes a before-and-after video, an e-collar, a 15-foot training leash, and a two-hour one-on-one turnover session when the dog returns home. During that session,

the trainer reviews the dog's training and provides handling guidance to help the owner maintain the learned behaviors.

Off Leash K9 Training of Oklahoma states that no trainer can guarantee the complete elimination of certain behavioral or anxiety-based issues and that consistent follow-through at home is required. The business serves Oklahoma City, Edmond, Norman, Moore, Bethany, Yukon, Midwest City, Del City, and other listed Oklahoma communities. Dog owners can review the Four-Week Board and Train program and request a free phone consultation through the business's website.

A friendly Golden Retriever enjoys a calm outdoor interaction with a child during training in Oklahoma.

“

The four-week format gives trainers time to build obedience through a structured progression and then practice those skills around everyday distractions.”
