

Off Leash K9 Training of Detroit Highlights Two-Week Board and Train for Real-World Obedience and Off-Leash Reliability

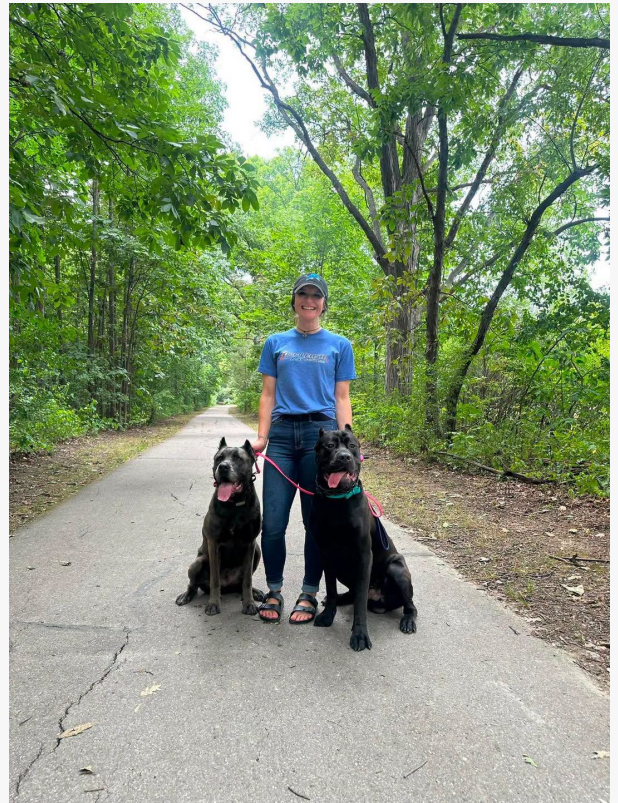

The immersive program combines core obedience commands, distraction training, household manners, and owner instruction

DETROIT, MI, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- [Off Leash K9 Training of Detroit](#) is highlighting its [Two-Week Board and Train](#) program for dog owners seeking practical obedience and greater control in everyday environments. The immersive program combines core obedience commands, on-leash and off-leash training, distraction work, household manners, and instruction for owners.

During the program, each dog boards with a professional trainer for two weeks of structured training. The curriculum covers six core commands: sit, place, heel, down, come, and off. Extended sit, place, and down are also included to help dogs remain in position until they are released.

The Two-Week Board and Train also includes on-leash and off-leash heel work and full off-leash recall. Dogs practice their commands around multiple distractions and in different environments, including situations involving other dogs and people. This approach helps dogs respond more consistently during walks, public outings, and other real-world situations.

Household manners are incorporated alongside obedience training. Dogs work on greeting manners, including not jumping on people, as well as appropriate behavior around doors, gates, and mealtimes. These exercises address common routines that owners regularly manage at home and around visitors. After the program, the owner receives a two-hour, one-on-one session to review the dog's trained commands and learn how to handle the dog properly.

A trainer enjoys an outdoor walk with two attentive dogs on a wooded trail in Detroit, MI.

Off Leash K9 Training of Detroit states that Off Leash K9 Training of Detroit does not guarantee that major dog aggression or aggression toward people will be completely resolved through the Two-Week Board and Train. Through the Two-Week Board and Train. The training may provide owners with greater control and help them manage these concerns. Dog owners considering board and train in Detroit, dog board and train in Michigan, off-leash dog training in Detroit, or obedience training near Farmington, MI, may request a free phone consultation to discuss their dog's behavior, training goals, and whether the program is an appropriate option.
