

Celebriffy Technologies Launches Todoventasmx.com: An AI-Powered, Ultra-Secure Market Platform Revolutionizing P2P Sales

MIAMI, FL, UNITED STATES, August 26, 2026 /EINPresswire.com/ -- MIAMI, FL — August 26, 2026 — [Celebriffy Technologies](#), led by visionary Tech Founder and Chairwoman [Noelia](#) Lorenzo Monge, has officially announced the launch of [Todoventasmx.com](#). This cutting-edge marketplace platform is designed to provide the ultimate blend of safety, speed, and advanced artificial intelligence for peer-to-peer (P2P) transactions.

The platform debuts with a suite of next-generation features aimed at solving the two biggest hurdles in online selling: time-consuming listing creation and transaction safety.

Next-Gen AI: From Photo to Listing in Under 2 Minutes

At the core of Todoventasmx.com is an advanced, built-in AI Assistant that automates the selling process. When a user snaps a photo within the platform's user interface or uploads an image, the AI instantly analyzes the asset:

- * **Automated Descriptions:** The AI generates an accurate, high-converting product description automatically. This feature remains entirely optional for sellers.

- * **Smart Price Suggestions:** By executing an instant search of similar items currently for sale in the local area, the AI offers real-time pricing guidance to help sellers maximize profits.

- * **Speed:** A streamlined, user-friendly interface allows sellers to complete their entire listing process in less than two minutes.

Unprecedented Security: The RED Seal Verification

Addressing the growing safety concerns in modern online marketplaces, Todoventasmx.com introduces a rigorous security layer. Sellers can earn a prestigious RED Seal Verification Badge directly through their account dashboards. The verification requires:

- * An official government-issued ID upload.
- * Integrated biometric face-matching technology.

By ensuring users are exactly who they claim to be, the platform provides the safe, trusted ecosystem that modern P2P commerce demands.

Instant Social Amplification

To maximize listing visibility, Celebriffy Technologies has integrated powerful sharing capabilities. Sellers can cross-promote their items seamlessly via the platform's proprietary communicator, Buzzzup, as well as WhatsApp, allowing listings to tap into existing social networks instantly.

Aggressive International Expansion

The launch of Todoventasmx.com marks the first phase of an ambitious global rollout strategy. "Safety and a seamless experience is our goal," stated Misael Alejandro Vazquez, President of Celebriffy Technologies LATAM. "Our CEO Jorge Reynoso and our COO Omar Al Atroshi have an aggressive roadmap to provide every country in Latin America and the United States with their own dedicated platform by the end of October. Mexico and the Dominican Republic are officially live right now."

About Celebriffy Technologies

Celebriffy Technologies is a leading-edge technology developer operating with proprietary code to build highly secure, AI-driven digital ecosystems, fintech tools, and communication solutions. Under the
