

NYC Aesthetic Plastic Surgeon Named Among “America’s Best Plastic Surgeons” for 2026 in Newsweek® Magazine

Dr. Ira Savetsky, an award-winning plastic surgeon, was honored as one of “America’s Best Plastic Surgeons” in 2026 for his work in rhinoplasty.

NEW YORK CITY, NY, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- When it comes to undergoing aesthetic procedures, thoughtful selection of a trusted and reputable plastic surgeon is critical to maximizing patient satisfaction and the overall quality of one’s results. In order to help those considering plastic surgery more easily navigate the process of choosing a

qualified provider, global data intelligence company Statista® partners with Newsweek® on a yearly basis to compile an annual guide known as the “America’s Best Plastic Surgeons” list, which highlights the most esteemed and experienced aesthetic surgeons across six procedure categories. [New York City aesthetic plastic surgeon](#) Ira Savetsky, MD was included in the “America’s Best Plastic Surgeons” ranking for his specialty in [rhinoplasty](#), emphasizing his award-winning approach to achieving authentic, high-caliber results in nose surgery.

The “America’s Best Plastic Surgeons” compilation is determined based on a mixture of quality-of-care scores, certification scores, and peer recommendations from healthcare professionals and other experts in the medical community, ultimately revealing the most recommended plastic surgeons for breast augmentation, rhinoplasty, tummy tuck, liposuction, [facelift](#), and eyelid surgery, respectively. With his recognition in nose surgery specifically, Dr. Savetsky stands among only a handful of rhinoplasty surgeons in the country included in the ranking. This designation follows his recent recognition in The Hollywood Reporter’s “New Face of Hollywood” issue as one of the “Top Aesthetic Gurus in America.”

Also featured in The New York Post’s article revealing “the next generation of elite plastic surgeons,” Dr. Savetsky is known for his subtle, preservative approach to aesthetic surgery

rather than techniques that focus on dramatic overhaul. Whether performing facelift surgery, body sculpting, breast enhancement, or plastic surgery for men, Dr. Savetsky aims to create authentic and harmonious results for each patient through advanced and highly specialized techniques.
