

McCoy & Simplement Partner for Real-Time SAP Data Extraction to Third-Party Tools

New partnership delivers reliable, real-time SAP data integration with Microsoft Fabric, Databricks, Google BigQuery, and Snowflake for modern data stack.

LAS VEGAS, NV, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- More and more organizations are making data from their SAP landscape available in platforms such as Microsoft Fabric, Databricks, Google

BigQuery and Snowflake. In doing so, they are increasingly opting for a hybrid IT landscape in which SAP and non-SAP technology are deployed side by side.

It is precisely in these hybrid environments that reliable availability of SAP data for the tools the organization works with becomes essential.

To support organizations in this, [McCoy & Partners](#) and [Simplement](#) are entering into a partnership. Through this collaboration, both parties are responding to the growing demand for reliable integration of SAP data with non-SAP data platforms.

"We're seeing growing demand from our SAP clients to make SAP data directly available on platforms such as Microsoft Fabric, Databricks, and Snowflake. Simplement stands out for its transparent pricing and straightforward approach. Rather than adding unnecessary complexity, it focuses on what clients truly need: simple, reliable SAP data replication without unnecessary bells and whistles. That simplicity, combined with a pragmatic way of working, makes Simplement a natural match for McCoy's culture."

— Joury Jonkergouw, Business Unit Lead, McCoy & Partners

McCoy & Partners and Simplement are combining their complementary expertise. McCoy brings extensive knowledge of SAP and non-SAP platforms, data models, and reporting. Simplement complements this with technology that makes SAP data simply, consistently, and reliably available for non-SAP systems.

Simplement — real-time SAP data integration

McCoy & Partners — independent SAP partner

“Whether customers run S/4HANA, ECC or R/3 4.6c – McCoy has deep expertise in SAP business processes and data. Through our partnership, Simplement’s software platform provides the real-time SAP data layer for McCoy to develop and deliver accelerated business solutions for customers. We’re delighted to work with the knowledgeable and practical team at McCoy to provide simple, modern solutions to a wide range of SAP customers.”

— Robert MacLean, President, Simplement Inc.

About McCoy & Partners

McCoy & Partners is an independent SAP partner, founded in 2012 with the ambition to help organizations improve and maximize the value of their SAP landscape. With more than 400 professionals and offices in Eindhoven, Utrecht, Madrid, and Manila, McCoy supports customers worldwide with consulting, nearshore, and offshore services in the areas of SAP, data, and analytics. By combining SAP expertise with knowledge of data and technology, McCoy helps organizations create value from their business information.

About Simplement

Simplement was founded in 1998 with one goal: making SAP implementations simpler. Today, the company specializes in making real-time SAP data easy to access for organizations that have built their data and analytics landscape outside SAP. Trusted globally by organizations of every size, and across industries from mining, construction, aerospace & defense, utilities, government, and manufacturing, Simplement’s platform serves as the strategic interface to make turning SAP's complex data ready to use outside SAP to maximize value from their business information.
