

iQIBLA to Make a Debut at LEAP 2026, Unveiling New Product Strategy and Innovations Across Three Major Product Lines

RIYADH, RIYADH, SAUDI ARABIA, August 27, 2026 /EINPresswire.com/ -- Muslim-first tech brand iQIBLA has announced that it will participate in the LEAP 2026 Tech Expo, held from August 31 to September 3, 2026, at the RECC Malham Exhibition Center in Riyadh, Saudi Arabia. As one of the most influential annual events in the Middle East and global tech industry, LEAP 2026 will be its fifth edition, expected to bring together over 1,800 tech brands and more than 200,000 attendees worldwide. At this expo, iQIBLA will unveil its new product strategy and showcase its latest innovations.

New Product Strategy: Three Product Lines, Building a Full-Scenario iQIBLA Ecosystem.

At this LEAP, iQIBLA will reveal its ecosystem business framework for the first time. iQIBLA emphasizes that the brand's goal is not just to create products but to build an ecosystem—with smart hardware as the entry point, software services as the link, and AI capabilities as the engine, constructing an intelligent tech ecosystem that caters to all Muslim life scenarios.

iQIBLA x LEAP 2026

Building the Future of Muslim Tech

Following this ecosystem strategy, iQIBLA has planned three core product lines: Zikr Ring, iQIBLA Health, and iQIBLA Qimi AI.

- Zikr Ring product line: Focused on smart prayer rings, continually iterating wearable forms and functional experiences, strengthening its leading position in faith-based smart wearables, and shaping Muslim lifestyle and spiritual practice.

- iQIBLA Health product line: Concentrates on the health management needs of Muslims, integrating religious life habits with modern health tech to launch a series of smart health devices such as blood pressure monitoring and fitness trackers.

- iQIBLA Qimi AI product line: Driven by AI technology, exploring intelligent interactions, content services, and personalized experiences for Muslim users, creating AI products that truly understand Muslims.

Looking ahead, iQIBLA will continue innovating in health and AI, constantly expanding product boundaries and ecosystem depth, making smart technology a deeper part of Muslims' spiritual practice and daily life worldwide.

iQIBLA Zikr Ring - R1 & Aura series

iQIBLA health - Hajj band & Blood pressure watch

iQIBLA QIMI AI- QIMI Pone & QIMI Watch

Zikr Ring Product Line: R1 and Aura Series Leading Muslim Lifestyle and Faith practice.

As iQIBLA's flagship product line, Zikr Ring will showcase two major new releases at the expo.

- Zikr Ring R1: Modern Classic Design, Faith Meets Tech.

The R1 features a mainstream ring design, crafted from aerospace-quality stainless steel for a unique texture, and includes proprietary faith functions like prayer counting by iQIBLA. Seamlessly integrating into Muslims' daily routines, it leverages technology to shape the lifestyle and spiritual practice of modern Muslims.

Zikr Ring Aura Series: Beautiful Faith Jewelry

The Aura series by Beautiful Faith Jewelry targets Muslim users who seek a quality lifestyle and a premium experience, blending exquisite craftsmanship with smart technology to create top-tier wearable jewelry that combines spiritual value with fashion expression. With jewelry-level design, craftsmanship, and materials, it highlights the aesthetics of Islamic faith jewelry and follows the design philosophy "Beauty You Wear. Faith You Carry." Among them, Aura Premium is set with 99 diamonds, leading the faith jewelry trend with ultimate craftsmanship and making the beauty of faith wearable daily.

iQIBLA Health Product Line: Protecting Muslim Health

The iQIBLA Health product line introduces two products this time: the Hajj Band and a blood pressure watch, designed to address Muslim health pain points and typical scenarios. Whether it's health and safety management during the large crowds of Hajj, health management during Ramadan, or everyday blood pressure monitoring, iQIBLA Health is committed to safeguarding Muslim health with professional wearable technology solutions.

Hajj Band: Smart wristband for Hajj & Umrah, technology protecting your faith journey

The Hajj Band is a smart wristband created by iQIBLA specifically for Hajj and Umrah scenarios. Hajj is one of the most important religious duties in a Muslim's life, but with millions gathering in Mecca, Mina Valley, and Mount Arafat under extreme conditions like heat, crowding, and long walks, it poses significant challenges to pilgrims' health and safety. The Hajj Band is designed precisely to address these issues, using technology to safeguard pilgrims.

iQIBLA Blood Pressure Smartwatch: Medical-grade health companion for Muslims

The Muslim blood pressure smartwatch is the flagship product of the iQIBLA Health line, targeting Muslim users concerned with cardiovascular health. This watch deeply integrates medical-grade health monitoring with Muslim-specific religious functions, serving as both a professional health management device and a portable faith assistant, truly realizing "Faith and Health in one hand."

iQIBLA Qimi AI Product Line: AI companion for Muslim Children

The iQIBLA Qimi AI product line focuses on creating AI companions specifically for Muslim children, using the latest AI technology to support their safety, education, and growth while promoting the intergenerational transmission of Islamic culture and faith. The launch of this product line marks iQIBLA's innovation expanding from smart wearables into the field of artificial intelligence.

QIMI Phone: The World's First Smartphone for Muslim Children

QIMI Phone is the latest innovation in the iQIBLA Qimi AI product line and is hailed as "the world's first smartphone for Muslim children." From hardware to software, from content to services, and from features to interactions, this smart device is designed entirely for Muslim children, aiming to ensure every digital interaction aligns with Islamic values and supports the

healthy growth of Muslim kids.

QIMI Watch: Muslim Children's First AI Companion

QIMI Watch K2s is another flagship product in the iQIBLA Qimi AI line. It's a smartwatch specially designed for Muslim children, focusing on faith introduction as its core distinction, safety as a basic function, parent-child connection as the emotional link, and integrated AI features. It's tailored comprehensively to meet the growth needs of children in Muslim families.

About iQIBLA

iQIBLA was founded in 2020, headquartered in Dubai, UAE. It's a smart technology brand for Muslims worldwide, dedicated to applying leading wearable technology to both faith practices and everyday life. Its Zikr Ring is the world's first smart ring for Muslims and has become a benchmark product in the Muslim smart wearable market since its launch.
