

Javier Palomarez, USHBC President & CEO, Commends Charter for Helping Bring Connectivity to Small Businesses

WASHINGTON, DC, UNITED STATES, August 27, 2026 /EINPresswire.com/ --

On August 20, 2026, Charter announced that it had successfully completed its transaction of Cox Communications and acquisition of Liberty Broadband Corporation. As a result, Charter is now the largest broadband and video provider in the nation. [The United States Hispanic Business Council \(USHBC\)](#) staunchly supports policies and practices that help bolster connectivity for small businesses. [Javier Palomarez](#), President & CEO of the USHBC, released the following statement on behalf of the organization:

"Charter's merger and acquisition come after over a year of pending approvals and red tape. As an organization dedicated to supporting small businesses and creating an environment in which they can thrive, we staunchly supported and fought for these approvals. The ability for small businesses to get connected and access digital markets should not be halted by the government, and we commend all parties involved for reaching an approval agreement."

Palomarez continued:

"Charter, after surpassing both AT&T and Comcast as a broadband and video provider, is now positioned to bring better connectivity and affordable services to tens of millions of families and entrepreneurs in forty-five states. We look forward to working alongside them to ensure these benefits reach our community of business builders and hardworking Americans. For them, especially those in rural areas of America, affordable and high-speed broadband is a life-line."

The USHBC supports the policies and people that benefit and empower the American small business community. The organization also supported the merger of Verizon and Frontier, in line with their priority to bring affordable broadband to business owners across the nation.
