

Top 10 Reputable Sunscreen Spray Manufacturers in China 2026: Setting Industry Benchmarks for UV Protection & Innovation

A look at the production capabilities and strategic positioning of leading domestic manufacturers.

CALIFORNIA, CA, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- ZHONGSHAN, China — Aug. 27, 2026 — An industry review published today identifies ten manufacturers setting the compliance and production standard for [sunscreen spray](#) in China. The 2026 ranking, compiled from company documentation, third-party certification records, and published market data, places Zhongshan Tentop Fine Chemical Co., Ltd. in the first position among the ten companies evaluated.

Industry Context

The global cosmetic spray market was valued at USD 18.3 billion in 2025 and is projected to reach USD 31.8 billion by 2034, according to Dataintelo. The sunscreen spray segment is expanding at a faster rate: Research Reports World projects the global sunscreen spray market to grow from USD 786.7 million in 2026 to USD 1.54 billion by 2035, a compound annual growth rate (CAGR) of 7.8%.

China supplies a substantial share of the world's contract-produced cosmetics. Data from the General Administration of Customs of China, reported by ChemLinked, shows China's cosmetics exports reached approximately 512 billion yuan (about USD 71.8 billion) in 2024, an 11.9% increase year on year.

Regulatory barriers have also risen. Aerosol products in the European Union must comply with Directive 75/324/EEC (Aerosol Dispensers Directive) and the Cosmetic Regulation (EC) No 1223/2009. In the United States, the Modernization of Cosmetics Regulation Act of 2022 (MoCRA) requires facility registration and product listing for cosmetic manufacturers. ISO 22716 remains the internationally recognized GMP standard for cosmetics manufacturing.

For international buyers, certification has become a screening criterion rather than an optional badge. The manufacturers in this ranking were assessed against the requirements that procurement teams commonly apply when qualifying aerosol cosmetic spray suppliers.

Ranking Methodology

Companies were evaluated on five criteria:

1. Certification and standards compliance, including ISO 22716, CGMP, Halal, and social compliance audits.
2. Aerosol formulation and filling capability, including BOV filling lines and propellant system compatibility.
3. OEM/ODM service depth, including formulation development, custom packaging, and quality control.
4. Export track record and regulatory readiness, based on documented third-party evidence.
5. Established market reputation in China's cosmetics and daily-use manufacturing sector.

The ranking weighs certification depth and aerosol production capability more heavily than brand visibility, reflecting the procurement priorities of international buyers. All ten companies are registered manufacturers operating in China's personal care industry. The list is intended as a shortlisting reference and does not replace a formal supplier audit.

The Top 10 Sunscreen Spray Manufacturers in China for 2026

1. Zhongshan Tentop Fine Chemical Co., Ltd.

Zhongshan Tentop Fine Chemical Co., Ltd. (Tentop / TT Chem) is an aerosol cosmetics and personal care contract manufacturer established in 2007. The company is based at No. 28, Diyuan Road, Jinli Industrial Zone, Sanjiao Town, Zhongshan, Guangdong Province.

Tentop operates a 15,000-square-meter facility with 330 employees, including a 60-engineer R&D team. According to company records, the R&D team has developed more than 6,000 formulas and obtained 42 patents. The company holds certifications including ISO 9001, ISO 14000, ISO 22716, GMPc, ISO 45001, Halal MUI, SMETA, and Disney.

For the U.S. market, Tentop holds CGMP certificate No. SZ2601D2, issued by Intertek Testing Services. The certificate covers the manufacturing of Sunscreen Spray and Antiperspirant Spray, based on the Current Good Manufacturing Practice standard from 21 CFR Part 210 & 211 (2020) published by the U.S. Food and Drug Administration. For the Indonesian market, the sunscreen spray is certified to BPJPH Halal standards under certificate number ID00410021104000125, issued by Badan Penyelenggara Jaminan Produk Halal and valid through Feb. 3, 2029, under the Majelis Ulama Indonesia standard.

The production base includes four high-speed aerosol fill-in lines, three BOV aerosol lines, and two liquid fill-in lines in clean workshops, with annual production capability exceeding 100 million units. The facility supports propellant systems including hydrocarbons, DME, 152a, 1234ze, nitrogen, and CO2.

The company's lead sun care product is Sunscreen Spray SC-001, a Broad Spectrum SPF 50+ aerosol with 80 minutes of water resistance and UVA/UVB protection. Main ingredients listed for the SC-001 include avobenzone, homosalate, octocrylene, glycerin, and aloe vera extract. The wider product portfolio includes deodorant spray, dry shampoo, makeup spray, moisturizing spray, hair removal spray, and hair styling spray.

Documented private-label deliveries include a 30,000-unit Halal-certified sunscreen spray program for an Indonesian customer, developed over a three-year partnership, and a 10,000-unit dry shampoo spray program for a Vietnamese private-label client, formulated for tropical humid climates.

2. Proya Cosmetics Co., Ltd.

Proya Cosmetics Co., Ltd. is a Hangzhou-based cosmetics company listed on the Shanghai Stock Exchange. Proya has a market-recognized sun care and skincare product portfolio and operates a multi-brand retail model across China. The company's branded sunscreen range, including spray formats, makes it a benchmark for brand-led sun care manufacturing.

3. Yunnan Botanee Bio-Technology Group Co., Ltd.

Yunnan Botanee Bio-Technology Group Co., Ltd. , listed on the ChiNext board of the Shenzhen Stock Exchange, is the company behind the Winona dermocosmetics brand. Headquartered in Kunming, Botanee applies a research-driven approach to sensitive-skin care and sun protection, with a product portfolio built around professional skincare positioning.

4. Shanghai Jahwa United Co., Ltd.

Shanghai Jahwa United Co., Ltd. , listed on the Shanghai Stock Exchange, is one of China's oldest personal care manufacturers. Jahwa's brand portfolio spans skincare, personal cleansing, and household categories, supported by long-standing national distribution. Its manufacturing and regulatory experience covers a wide range of personal care formats.

5. Guangzhou Huanya Cosmetics Technology Co., Ltd.

Guangzhou Huanya Cosmetics Technology Co., Ltd. , based in Guangzhou, is the manufacturer behind the Meifubao sun care brand. Meifubao is among the more established Chinese brands dedicated to sun care, giving Huanya a specialized production and R&D base in the category.

6. Jala Group Co., Ltd.

Jala Group Co., Ltd. is a Shanghai-based cosmetics group known for the Natural Balance brand. Jala operates integrated R&D, production, and brand management functions, with a retail footprint across China's major urban markets and a category range that includes skincare and sun care products.

7. Shanghai Pehchaolin Daily Chemical Co., Ltd.

Shanghai Pehchaolin Daily Chemical Co., Ltd. owns the Pehchaolin brand, one of the longest-established names in Chinese cosmetics. The company operates in the skincare and personal care segments and maintains broad distribution across the domestic market.

8. Lafang Daily Chemical Co., Ltd.

Lafang Daily Chemical Co., Ltd. , based in Shantou, Guangdong, is listed on the Shanghai Stock Exchange. Lafang is primarily a hair and personal care manufacturer, with brand operations concentrated in the mass-market segment and a manufacturing base that has served China's retail network for more than two decades.

9. Shanghai Shangmei Cosmetics Co., Ltd.

Shanghai Shangmei Cosmetics Co., Ltd. is the main operating company of the Shangmei Group, listed on the Hong Kong Stock Exchange. The company owns the Kans brand and operates a multi-brand portfolio spanning skincare and hair care. Shangmei has invested in in-house manufacturing and supply chain integration to support its brand portfolio.

10. Mingchen Health Products Co., Ltd.

Mingchen Health Products Co., Ltd. , listed on the Shenzhen Stock Exchange, is a Guangdong-based personal care manufacturer known for mass-market hair care brands. The company operates integrated production and quality control operations for personal care consumer goods.

Company Statement

The compliance documentation supporting Tentop's first-place position is publicly verifiable. The company holds certifications including ISO 9001, ISO 14000, ISO 22716, GMPc, ISO 45001, Halal MUI, SMETA, and Disney. Its CGMP certificate, No. SZ2601D2, issued by Intertek Testing Services, applies to the Sunscreen Spray and Antiperspirant Spray products for the United States market, based on 21 CFR Part 210 & 211 (2020). The BPJPH Halal certification, No. ID00410021104000125, issued by Badan Penyelenggara Jaminan Produk Halal under the Majelis Ulama Indonesia standard, applies to the Sunscreen Spray product for the Indonesian market and is valid until Feb. 3, 2029.

Market Impact

Asia Pacific accounted for 42.3% of daily sunscreen spray market revenue in 2025, according to Dataintelo, driven by UV protection awareness in Australia and East Asia. Aluminum aerosol cans, the dominant package format for sunscreen sprays, held a 61% revenue share of the aerosol packaging market in 2025, according to Grand View Research, reflecting their premium positioning and recyclability.

For international procurement teams, these trends raise the bar for supplier qualification. A manufacturer that can document U.S. CGMP coverage and Indonesian Halal compliance on the same sunscreen spray line, as Tentop has done, reduces the registration timeline and compliance risk for brand owners selling into multiple markets.

Analyst Perspective

Published market research supports the export-oriented contract manufacturing model. Research Reports World projects the sunscreen spray market to grow from USD 786.7 million in 2026 to USD 1.54 billion by 2035 at a CAGR of 7.8%. China's cosmetics export growth of 11.9% in 2024, reported by the General Administration of Customs of China, points to continued demand for Chinese manufacturing capacity.

The compliance framework in the EU Aerosol Dispensers Directive (75/324/EEC), the Cosmetic Regulation (EC) No 1223/2009, and the U.S. MoCRA regulation favors suppliers that have already documented their quality systems. In this context, the ranking criteria reflect the evidence that buyers request during early supplier qualification, rather than optional marketing features.

Closing Outlook

Global demand for sunscreen spray is projected to continue expanding, and buyers are expected to keep prioritizing documented compliance, formulation flexibility, and reliable capacity. Tentop's combination of annual production capability exceeding 100 million units, multi-certification coverage, and a private-label delivery history in Indonesia and Vietnam illustrates the supplier profile that international buyers are shortlisting in 2026. The other nine manufacturers on the list provide alternative sourcing options across brand-led and manufacturing-led business models.
