

JAN-PRO of Memphis Outlines What Commercial Cleaning Covers

JAN-PRO of Memphis outlines the scope of a recurring commercial cleaning program and the reasons businesses across the Mid-South outsource the work.

MEMPHIS, TN, UNITED STATES, August 31, 2026 /EINPresswire.com/ -- JAN-PRO Cleaning & Disinfecting of Memphis has outlined what a recurring commercial cleaning program covers and the reasons businesses across the Mid-South outsource the work rather than manage it in-house. While commercial cleaning is often understood as trash removal and vacuuming, a defined program encompasses a broader and more consistent scope, and the requirements differ substantially by facility type.

“

Memphis runs on logistics and healthcare, and a distribution center does not get cleaned like a medical office or a bank. A recurring program means the right plan for the facility”

Jason Pierami, Owner at JAN-PRO of Memphis

program covers:

An industry-specific, recurring plan. Memphis is one of the country’s principal logistics and distribution centers, with a large base of warehouses, freight and supply-chain operations, and a

The graphic features the JAN-PRO logo (CLEANING & DISINFECTING) and the title 'What Commercial Cleaning Covers'. Below this, it says 'JAN-PRO of Memphis' and lists services: 'Recurring service, high-touch disinfection, floor care, and consistent results.' On the right, a woman in a blue JAN-PRO uniform is cleaning a conference table with a spray bottle and cloth. A city skyline is visible through the window behind her.

What Commercial Cleaning Covers

JAN-PRO of Memphis

Recurring service, high-touch disinfection, floor care, and consistent results.

JAN-PRO of Memphis outlines what a recurring commercial cleaning program covers for businesses across the Mid-South.

According to the company, the value of professional commercial cleaning appears in areas that are easy to overlook, including reduced sick days, longer-lasting floors and finishes, and a consistently professional appearance. Those outcomes are associated with a defined, recurring program rather than occasional cleaning. The company notes that it builds a customized plan for each facility using its Signature Clean system and serves a range of sectors including medical facilities, schools, retail, and financial institutions.

JAN-PRO of Memphis identifies what a commercial cleaning

substantial medical and healthcare sector alongside its professional and civic institutions. A distribution facility, a medical office, and a bank have different requirements, and a plan built for the specific facility type supports a more consistent result than a uniform approach.

High-touch surface disinfection. Desks, door handles, shared equipment, and restrooms are common transmission points. Disinfecting these points on a consistent schedule affects how much illness circulates through a workplace. The company notes it uses its EnviroShield disinfection system and HEPA-filter vacuums as part of its process.

Floor and surface care. Carpets, hard floors, and common areas take constant traffic. Regular care keeps them presentable and extends their service life, protecting the investment a business has made in its space.

Methods aligned with recognized standards. The company notes that its services are designed to comply with health and safety guidance from OSHA and the CDC, which is relevant to the medical, industrial, and civic facilities common in the Memphis market.

Verified, consistent service. The company notes that its Signature Clean system is built around a consistent, repeatable process and a reliable team, which supports a measurable standard rather than one assessed by a single visual check.

“What businesses are really buying is consistency and not having to think about the cleaning. Memphis runs on logistics and healthcare, and a distribution center does not get cleaned like a medical office or a bank. A recurring program means the right plan for the facility, the same standard every visit, and someone accountable for it.” Jason Pierami, Owner at JAN-PRO of Memphis & the Mid-South

Memphis anchors the Mid-South economy as a national hub for logistics, distribution, and freight, alongside a major medical and healthcare sector and a broad base of professional, financial, and civic institutions. Facilities across those sectors rely on a clean, professional, and often compliance-sensitive environment, which a recurring program with a customized plan and documented process is designed to support.

WHAT A COMMERCIAL CLEANING PROGRAM COVERS
A clean facility is more than appearances.
It's a healthier, safer and more productive environment for your business.

JAN-PRO of Memphis delivers a customized, recurring cleaning program built around our **Signature Clean** system.

- INDUSTRY-SPECIFIC, RECURRING PLAN**
Every facility is different. We build a plan around your industry, facility type and traffic patterns for consistent, reliable results.
- HIGH-TOUCH SURFACE DISINFECTION**
We focus on desks, door handles, restrooms and shared equipment using our EnviroShield™ disinfection system and HEPA-filter vacuums.
- FLOOR & SURFACE CARE**
Regular care for carpets, hard floors and common areas keeps your facility looking its best and extends the life of your investment.
- METHODS ALIGNED WITH STANDARDS**
Our cleaning methods align with guidance from OSHA and the CDC to support safe, compliant environments across your facility.
- VERIFIED, CONSISTENT SERVICE**
Our Signature Clean system provides a repeatable process, trained teams and quality inspections for a measurable standard every visit.

THE VALUE OF A PROFESSIONAL PROGRAM
Reduced sick days, longer-lasting floors and finishes, and a consistently professional appearance—achieved through a defined, recurring plan.

- Healthier Workplaces
- Protects Your Investment
- Professional Appearance
- Consistent Every Visit
