

eStruxture Appoints David Schwartz as Chief Financial Officer

Strategic appointment strengthens executive leadership as eStruxture scales Canada's digital infrastructure footprint

MONTRÉAL, QUÉBEC, CANADA, August 31, 2026 /EINPresswire.com/ -- eStruxture, the largest Canadian data centre provider, today announced the appointment of David Schwartz as Chief Financial Officer.

“

David's deep financial acumen, track record in capital markets, and scaling high-growth technology companies make him an exceptional addition to our executive team.”

*Todd Coleman, Founder,
President, and CEO of
eStruxture*

David brings more than 30 years of experience in capital markets, M&A, corporate finance, and scaling high-growth technology businesses. He most recently served as CFO of global payments infrastructure provider Nuvei Corporation. Since joining Nuvei in 2018, David has played a key role in driving its global transformation — guiding the business through rapid international expansion, multiple transformational acquisitions, its initial public offering, and its subsequent take-private transaction.

“As eStruxture enters a larger, more complex, and capital-intensive phase, we are strengthening our leadership team to support the significant opportunities ahead,” said Todd Coleman, Founder, President, and CEO of eStruxture. “David's deep financial acumen, track record in capital markets, and scaling high-growth technology companies make him an exceptional addition to our executive team. His leadership will be instrumental as we continue to expand our platform and invest to meet growing demand for digital infrastructure across Canada.”

“I am thrilled to join eStruxture at such a pivotal moment in its trajectory,” said David Schwartz. “As Canada's preeminent data centre platform, eStruxture is uniquely positioned to power the next generation of digital infrastructure. I look forward to working closely with the executive team to drive sustainable growth and long-term value creation.”

This strategic appointment underscores eStruxture's investment in the leadership and capabilities required to support its next phase of growth and strengthen its position as a leading Canadian digital infrastructure platform.

About eStruxture Data Centers

As the largest Canadian-owned data center provider, eStruxture is headquartered in Montreal with a strategic presence in Toronto, Calgary, and Vancouver. The company empowers organizations to navigate a dynamic digital landscape by offering the flexibility to scale rapidly and adapt to the shifting requirements of the data economy.

eStruxture is the trusted partner for over 750 customers, including leading carriers, cloud providers, and specialists in AI and GPUaaS, alongside media, finance, and enterprise sectors. Across its carrier and cloud-neutral facilities, eStruxture delivers premier colocation, bandwidth, security, and dedicated support services to its pan-Canadian clientele.
