

Impact Lighting's StoneLux™ Chosen as Exclusive LED Provider by Stone Tile Group

StoneLux™ double-copper LED sheets deliver ultra-bright, zero-maintenance backlighting designed for custom lighted countertops, Cristallo and translucent stone.

ORLANDO, FL, UNITED STATES, September 11, 2026 / EINPresswire.com/ -- [Impact Lighting Inc.](#), an industry leader in architectural illumination, has been selected by [Stone Tile Group](#) as their exclusive provider of premium LED backlighting sheets for translucent stone applications. Under this partnership, Stone Tile Group will integrate Impact Lighting's product, [StoneLux™](#), into all custom backlit stone installations across residential, commercial, and hospitality sectors.

Backlit Kitchen Island

StoneLux™ is engineered specifically for illuminating natural, translucent stone, including backlit Cristallo quartzite, onyx, marble, and semi-precious slabs. Built with proprietary double-copper trace technology, StoneLux™ delivers superior thermal management, exceptional durability, and the highest lumen output in the industry, making it the premier choice for zero-maintenance lighted countertops and architectural features.

Key Features of StoneLux™ LED Sheets:

- **Double-Copper Trace Technology:** Heavy-duty circuitry prevents voltage drop, ensures even edge-to-edge diffusion without hot spots, and extends diode longevity.
- **Maintenance-Free Durability:** Designed for permanent, sealed installations under heavy stone slabs where replacement is not an option.

- Optimal Color Rendering: Tuned specifically to enhance the depth, veining, and natural crystallization of translucent stone and Cristallo surfaces.

- Nationwide & Global Fulfillment: Manufactured and distributed from Orlando, Florida, with shipping available throughout the United States and internationally.

As the demand for luxury lighted countertops and custom backlit stone features accelerates nationwide, the partnership establishes a new benchmark for architectural backlighting reliability and visual clarity.
