

Belladri Positions Downtown St. Pete Practice Around Regenerative Medicine

Boutique aesthetics studio launches new website and celebrates grand opening with ribbon cutting Sept. 25

ST. PETERSBURG, FL, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- [Belladri](#), a boutique aesthetics and wellness practice in downtown St. Petersburg, is formally positioning its clinical model around regenerative medicine, with a treatment philosophy focused on stimulating the body's own healing response rather than surface-level cosmetic correction. The practice, founded and operated solely by Adrianna Leszczynska, MBA, APRN, FNP, launched a new website this month and will celebrate its grand opening ribbon cutting on Sept. 25.

“

The goal has never been to change someone's face. It has always been to give the body what it needs to restore itself.”

*Adrianna Leszczynska, MBA,
APRN, FNP*

The [regenerative model](#) at Belladri centers on treatments that trigger collagen and elastin production from within: PicoWay picosecond laser therapy, RF microneedling with exosomes, bio-stimulators such as Radiesse, peptide therapy and IV infusions. The approach reflects a broader shift in aesthetic medicine away from temporary correction and toward longer-term renewal. Belladri's combination protocols pair laser resurfacing, collagen induction therapy and systemic wellness support to address both how patients look and how they feel.

"The goal has never been to change someone's face. It has always been to give the body what it needs to restore itself," said Adrianna Leszczynska, founder and nurse practitioner of Belladri. "When you combine the right technologies with the right support from the inside, things like IV hydration, peptides and biostimulators, the results look like you. They just look like a better, well-rested version of you. That is what regenerative medicine is, and that is what I want Belladri to be known for."

Belladri offers regenerative aesthetics alongside injectables, IV therapy and a full skin care program from its location at 111 2nd Ave NE, Suite 213, inside a private courtyard in the heart of downtown St. Pete. Leszczynska is a board-certified family nurse practitioner, certified in functional medicine and advanced wound care, and a Candela Technology Partner. Every treatment at the practice is performed by Leszczynska personally. Transparent pricing is

available across all services. Cherry financing is also available.

The ribbon cutting on Sept. 25 will mark Belladri's public grand opening. New and prospective patients can learn more and book a consultation at belladri.com or by calling (727) 266-1500.
