

150+ Locations and Counting: WhiteWater Express Expands with Custom Metal Canopies in Houston

A Texas-based sign company fabricated and installed custom metal canopies for WhiteWater Express Car Wash in Houston with Renascent Constructors.

HOUSTON, TX, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- A Texas-based sign company recently fabricated and installed [custom metal canopies](#) for WhiteWater Express Car Wash in Houston in collaboration with

Renascent Constructors, supporting the exterior construction and branding needs of one of the country's rapidly expanding express car wash operators.

“

Custom metal canopies combine practical coverage with the durable, professional appearance commercial properties need.”

Hussain Haidar, Asst. Business Development Manager at Royal Signs & Awnings

The project demonstrates how custom-fabricated exterior structures can contribute to the functionality, appearance and brand consistency of high-traffic commercial properties. The metal canopies were fabricated to support the needs of the WhiteWater Express location while complementing the company's established commercial design.

WhiteWater Express Surpasses 150 Locations

The project comes as WhiteWater Express continues a significant expansion across the United States. In June 2026, the Houston-based car wash company announced

that it had surpassed 150 locations across eight states, with 10 additional sites scheduled to open during the remainder of the year.

Just weeks earlier, WhiteWater had reported 144 operating locations across seven states. The company subsequently expanded its Houston presence through the acquisition of Aqua Super Express Car Wash, bringing its Houston network to 25 stores with plans to reach 28 by the end of

2026.

That rapid growth creates a strong example of the importance of reliable fabrication and installation partners capable of supporting multi-location commercial development.

Collaboration with Renascent Constructors

The Houston canopy project was completed in collaboration with Renascent Constructors, a Texas commercial construction company with experience in new commercial developments and car wash construction.

Renascent's documented project history includes multiple car wash developments. One WhiteWater Express project in Fort Worth was listed at a \$1.1 million valuation and included a new car wash along with additional permits for a dumpster enclosure, vacuum bay and pay canopy. Another WhiteWater Express project listed by Renascent involved a new 4,816-square-foot facility in Fort Worth.

These projects illustrate the scale of commercial construction associated with growing car wash brands and the need for specialty fabrication partners that can coordinate with general contractors and development teams.

Custom Metal Canopies for Commercial Properties

For commercial properties, metal canopies can provide functional coverage while also becoming an important part of a building's exterior appearance. Consistent fabrication, durable materials and professional installation are particularly important for businesses operating multiple locations under a unified brand.

The Houston WhiteWater Express project showcases the application of custom metal canopy fabrication within a growing commercial development environment. Similar solutions can be used for car washes, restaurants, retail centers, automotive

facilities, medical properties, financial institutions and other high-traffic commercial locations.

In addition to canopies, exterior branding frequently requires monument signs, pole and [pylon signs](#), [channel letters](#) and other custom signage. Coordinating these elements with an experienced commercial signage and fabrication partner can help contractors and property owners maintain consistency from the building's architecture through its exterior identification.

Supporting Multi-Location Growth

WhiteWater Express' expansion demonstrates the opportunity created when a recognizable commercial brand continues adding locations across major markets. With more than 150 locations and additional sites planned, the company's growth provides a clear example of the construction activity generated by successful multi-location businesses.

For general contractors, developers, franchise groups and commercial property owners, projects like this reinforce the value of dependable partners for exterior fabrication and branded site elements. From custom metal canopies to monument signs and pole and pylon signs, properly fabricated exterior components can help commercial properties achieve both practical performance and a consistent visual identity.

About Royal Signs & Awnings

Royal Signs & Awnings is a Texas-based commercial signage and exterior fabrication company providing custom metal and fabric awnings, metal canopies, monument signs, pole and pylon signs, channel letters, cabinet signs, interior branding and other commercial signage solutions. The company works with businesses, contractors and multi-location organizations on fabrication, installation, maintenance and signage projects.

About WhiteWater Express Car Wash
