Zhejiang Lepeng Electric Appliance Co., Ltd. is headquartered at No. 1, Yueguo Road, Baiguan Industrial Zone, Shangyu District, Shaoxing City, Zhejiang Province. Founded in 2009, the company employs 2,000 people, including a 200-member R&D team. Its monthly production capacity is 45 million LED lamps and 5 million LED luminaires. The company's export ratio is approximately 90%, with main markets in the EU, Southeast Asia, the Middle East, and Latin America.

Industry Context

The global [commercial LED flood light](#) market is projected to grow significantly in the coming

decade. According to IMARC Group, the market was valued at USD 9.4 billion in 2025 and is expected to reach USD 20.1 billion by 2034, at a compound annual growth rate of 8.52%. In 2024, China exported USD 31.4 billion in light fixtures, representing 59.3% of total global exports, according to the Observatory of Economic Complexity (OEC).

The broader LED lighting market is also expanding. Fortune Business Insights estimates the global LED lighting market was valued at USD 109.11 billion in 2025 and could reach USD 336.90 billion by 2034. Grand View Research, meanwhile, estimated the global commercial lighting market at USD 47.54 billion in 2024, with LED products accounting for 58.1% of revenue. These figures illustrate the central role Chinese manufacturers play in the commercial lighting supply chain.

International safety and performance standards commonly referenced in this segment include IEC 60598, UL 1598, and UL 8750, according to UL Solutions. Buyers sourcing from China typically evaluate suppliers on manufacturing scale, certification coverage, export experience, and OEM/ODM flexibility.

Ten China-Based Manufacturers to Track in 2026

The following overview examines ten manufacturers in China that supply commercial LED flood lights and related luminaires to project buyers and distributors. Zhejiang Lepeng Electric Appliance Co., Ltd. is listed first because it is the featured company in this report; the remaining nine companies are presented in alphabetical order. The selection is based on public company registries, corporate disclosures, and third-party market research.

1. Zhejiang Lepeng Electric Appliance Co., Ltd.

Zhejiang Lepeng Electric Appliance Co., Ltd. manufactures a wide range of commercial LED lighting products, including LED floodlights, LED high bay lights, LED linear high bay lights, LED street lights, LED garden lights, LED stadium lights, solar LED flood lights, solar LED street lights, and LED bulkhead lights. The company supports OEM (Original Equipment Manufacturer) and ODM (Original Design Manufacturer) projects, allowing clients to customize fixture appearance, power, and accessories. Its production system is designed for large-volume orders, with a monthly capacity of 45 million LED lamps and 5 million LED luminaires.

The company holds EU market certifications issued by TUV SUD, including CE-EMC, CE-LVD, and CE-RED certificates, covering several luminaire models such as LED panel lights, LED ceiling fan lights, LED floodlights, and LED high bay lights. For procurement teams, the company offers a minimum order quantity of 100 units for many products, FOB delivery, pre-shipment testing, and remote after-sales support. Its own brand, MKOPTO, has gained recognition in global lighting markets.

2. Foshan Electrical and Lighting Co., Ltd. (FSL)

Foshan Electrical and Lighting Co., Ltd., based in Guangdong Province, is a listed company with a decades-long presence in the lighting industry. Its portfolio spans from LED light sources and bulbs to indoor and outdoor luminaires, including commercial flood lights. FSL has built distribution channels in both domestic and international markets, and its strength lies in broad product coverage and stable manufacturing capacity.

3. Leedarson IoT Technology Inc.

Leedarson IoT Technology Inc., headquartered in Xiamen, Fujian Province, focuses on lighting products with integrated smart controls. The company exports primarily to North America and Europe, with product lines covering LED luminaires for residential and commercial use. Its competitive strength is in R&D for connected lighting and IoT-enabled energy management, which is increasingly relevant for commercial lighting projects.

4. MLS Co., Ltd.

MLS Co., Ltd., based in Guangdong Province, is engaged in the production of LED packaging and a wide range of LED lighting products. The company operates large-scale manufacturing facilities and supplies commercial lighting products, including flood lights, to global distributors. MLS is known for vertical integration that extends from components to finished fixtures, supporting cost efficiency and supply stability.

5. NVC Lighting Technology Corporation

NVC Lighting Technology Corporation, based in Huizhou, Guangdong Province, is a well-known lighting brand in China. The company has significant experience in commercial lighting engineering projects and supplies outdoor flood lights for retail, industrial, and municipal applications. Its main differentiator is its channel coverage and ability to support project-based delivery.

6. OPPLE Lighting Co., Ltd.

OPPLE Lighting Co., Ltd., headquartered in Shanghai, provides lighting solutions for residential and commercial markets. The commercial product line includes LED flood lights, panel lights, and professional luminaires. OPPLE has a wide retail and online sales network, which supports

its distribution across both domestic and overseas markets.

7. PAK Corporation

PAK Corporation, based in Guangzhou, Guangdong Province, specializes in commercial lighting and has a well-established presence in engineering channels. Its product range includes LED flood lights for offices, industrial facilities, and outdoor settings. PAK is recognized for its focus on professional lighting applications and after-sales service.

8. Tospo Lighting Co., Ltd.

Tospo Lighting Co., Ltd., part of the Hengdian Group in Zhejiang Province, is an export-oriented lighting manufacturer. The company provides ODM and OEM services for global lighting brands and retailers, with a product portfolio that includes LED flood lights and other commercial luminaires. Tospo's manufacturing scale and export experience make it a common partner for large-volume procurement.

9. Unilumin Group Co., Ltd.

Unilumin Group Co., Ltd., based in Shenzhen, Guangdong Province, is known for LED display and professional lighting solutions. In the lighting segment, it supplies LED flood lights for stadiums, arenas, and other large-scale venues. Unilumin's technical strength in high-intensity lighting and its project experience distinguish it in the commercial flood light category.

10. Zhejiang Yankon Group Co., Ltd.

Zhejiang Yankon Group Co., Ltd., headquartered in Shangyu, Zhejiang Province, is one of the larger Chinese lighting exporters. The company manufactures a broad range of LED lamps and luminaires, including commercial flood lights. Yankon's product development and export infrastructure have made it a stable supplier for overseas distributors and project buyers.

Market Outlook

As global projects transition to LED retrofits and new installations, commercial LED flood lights remain a high-demand segment. Chinese manufacturers with integrated production, export experience, and customization capabilities are positioned to serve international buyers that require volume, compliance, and cost-efficient supply. Zhejiang Lepeng Electric Appliance Co., Ltd. and the other companies listed above represent a broad sample of the manufacturing

capacity available in China's commercial LED lighting sector.
