Abdullah Nasir, Co-founder of G12

The new desk will guide UK and European clients through the company formation process in the UAE, including business structure selection, licensing, incorporation, and ongoing compliance. G12 will also support entrepreneurs exploring offshore company formation where such a structure is appropriate for their objectives and complies

with applicable laws and regulations.

The move comes as the UAE continues to attract UK and European entrepreneurs seeking access to international markets, options for foreign ownership available in many activities and structures, streamlined processes, and a competitive business environment. For many founders, understanding the available company structures and navigating incorporation and post-incorporation requirements can be a significant barrier to [establishing a presence in the UAE](#).

“We are expanding our business setup services to support clients across Europe, and the UK has become an important source of clients for us. This growth is why we’ve decided to open a desk dedicated to UK and European entrepreneurs,” said Abdullah Nasir, co-founder of G12.

The desk will serve as a single point of contact for UK and European clients throughout the setup process. It includes English-language support, remote onboarding, where permitted, for entrepreneurs who cannot travel to the UAE before registration, and support with VAT

registration, tax and accounting matters where applicable.

Founded in 2021, G12 supports entrepreneurs from around the world with UAE company formation, business structuring, offshore company formation, and ongoing compliance services.
