

Myridius Becomes an OpenAI Select Partner, Bringing Frontier AI to Enterprise Execution

As an OpenAI Select Partner, Myridius helps enterprises turn AI ambition into measurable business outcomes.

ISELIN, NJ, UNITED STATES, September 1, 2026 /EINPresswire.com/ -- [Myridius](#), an AI-native

“

Together with OpenAI, we are helping clients move beyond isolated AI use cases toward enterprise-scale execution systems where AI becomes part of how work is performed every day”

Girish Pai

engineering company that helps enterprises reinvent how work gets done by transforming technology, data, and operations into intelligent execution systems, today announced it has been named an [OpenAI](#) Select Partner within the OpenAI Partner Network.

The OpenAI Partner Network is a global program for partners to build, sell, and deliver AI solutions with OpenAI. It brings together partners with deep industry expertise, delivery capabilities, and customer relationships while equipping them with resources, enablement, and support to help enterprises adopt OpenAI frontier models and

products and turn them into measurable impact.

As an OpenAI Select Partner, Myridius will continue working with OpenAI to help organizations build, deploy, and scale AI responsibly and effectively. This work will help organizations get more useful work from every token and stronger performance per dollar with GPT-5.6, while using ChatGPT Work to turn ambitious goals into finished work. Leveraging GPT-5.6 and ChatGPT Work, the partnership will help customers improve productivity while accelerating the adoption of enterprise AI.

Combining deep industry expertise with engineering, cloud, data, and AI modernization capabilities, Myridius helps organizations move beyond experimentation to embed AI into the core of business operations. Through Myridius' [Evoq](#) AI-native execution platform, Myridius operationalizes OpenAI's frontier intelligence by orchestrating enterprise workflows, data, applications, engineering accelerators, AI agents, and industry capabilities enabling organizations to move from AI experimentation to enterprise-scale execution.

“Becoming an OpenAI Select Partner marks an important milestone in Myridius' evolution as an AI-native engineering company,” said Girish Pai, COO, Myridius. “Together with OpenAI, we are helping clients move beyond isolated AI use cases toward enterprise-scale execution systems

where AI becomes part of how work is performed every day. Joining together OpenAI's frontier models with Evoq, our engineering expertise, and deep industry knowledge, we can help organizations modernize faster, scale AI confidently, and create new sources of business value."

Myridius delivers AI-native engineering, cloud modernization, data and AI, enterprise platforms, quality engineering, and intelligent application services across Banking and Financial Services, Insurance, Travel and Hospitality, Nonprofit, and other industries. Building on OpenAI's technologies, the company continues to expand AI-native capabilities across software engineering, modernization, customer operations, data and analytics, and industry-specific business processes helping clients realize business value through repeatable, scalable AI capabilities.

Looking ahead, Myridius plans to expand its OpenAI-related offerings to help enterprises shift from isolated AI initiatives toward enterprise-wide transformation, helping customers translate AI ambition into business outcomes.
