APA Total Car Care Joins the Motorist Assurance Program for Honest Inspections

APA Total Car Care has joined the Motorist Assurance Program, adopting industry inspection and communication standards built on customer trust.

QUEEN CREEK, AZ, UNITED STATES, October 1, 2026 /EINPresswire.com/ -- APA Total Car Care is now a participating facility in the Motorist Assurance Program (MAP). The program is an automotive industry initiative focused on building trust between drivers and repair shops. Its approach centers on consistent inspection and communication standards.

MAP, a program of the Automotive Maintenance and Repair Association, is built on Uniform Inspection and Communication Standards developed over more than 25 years. Participating shops pledge to inspect vehicles against those standards and explain which services are required and which are suggested. For a driver, that means a written estimate explaining the recommended work and its cost. The standards provide a consistent framework for drivers seeking a second opinion from another MAP facility.

For APA Total Car Care, the membership formalizes an approach the team already takes with its auto repair and services in Queen Creek, AZ. Its digital vehicle inspections already give customers photos and clear findings to help them understand their vehicle's condition. The MAP standards put a recognized industry framework behind that approach, whether the job is brake or A/C work, engine diagnostics, transmission service, or a wheel alignment.

The membership adds to a track record of trust built through more than 35 years of hands-on experience and a team of ASE-certified technicians. It also includes a five-time CARFAX Top Shop

record and RepairPal Certified standing. Family-owned and women-led, APA has grown its East Valley following on straight talk and fair pricing. The MAP standards reinforce the transparent approach its customers have come to expect.

A Message From the Owner
"Trust is everything in this business, and the Motorist Assurance Program puts real standards behind it. We've always believed in showing people exactly what their vehicle needs and why, never padding the list. Joining MAP is us saying, on the record, that this is how we operate," said Sean Gordon, owner of APA Total Car Care.

About APA Total Car Care
