

Scarano Marine Attends 2026 North American John Deere Marine Dealer Meeting

Authorized dealer receives factory training on the new JD14 and JD18 marine engines and tours four John Deere facilities in Iowa and Illinois.

MIAMI, FL, UNITED STATES, August 28, 2026 /EINPresswire.com/ -- [Scarano Marine](#), an authorized MAN and John Deere marine engine dealer serving South Florida, the Bahamas, and the Caribbean, attended the 2026 North American John Deere Marine Dealer Meeting held in Cedar Falls, Iowa. The event brought together John Deere's marine dealer network for product training and direct engagement with the manufacturer's engineering, manufacturing, and support operations.

Scarano Marine at John Deere Waterloo Works during the 2026 North American Marine Dealer Meeting in Iowa.

A central focus of the meeting was hands-on training on John Deere's newest marine engines, the JD14 and JD18. The sessions gave dealers a detailed look at the engineering, performance characteristics, and service requirements of the latest additions to the John Deere marine lineup — knowledge that Scarano Marine carries directly back to the yacht owners, captains, and commercial operators it serves in South Florida.

“

Seeing where these engines are built and how they're supported gives us a level of understanding that goes well beyond the service manual.”

Scarano Marine*

In addition to the product training, Scarano Marine toured four John Deere facilities during the visit: Waterloo Works in Waterloo, Iowa, where John Deere engines are built; the Tractor Operations factory in Waterloo; Davenport Works in Davenport, Iowa; and the Parts Distribution Center in Milan, Illinois. The tours offered a firsthand view of how John Deere engines are manufactured, assembled, and

supported through the parts network.

“Seeing where these engines are built and how they're supported gives us a level of understanding that goes well beyond the service manual,” said Adolfo Scarano, founder of Scarano Marine. “When a customer's John Deere engine comes into our shop, that factory-level insight is part of what we bring to the work.”

The visit reinforces Scarano Marine's role as a factory-connected, authorized John Deere marine dealer. Manufacturer-level training and access to the John Deere engineering and parts network are what distinguish an authorized dealer from a general marine repair shop — particularly as newer engines like the JD14 and JD18 enter service and require current, factory-accurate knowledge to maintain properly.

Scarano Marine provides sales, service, warranty work, diagnostics, and genuine OEM parts for John Deere and MAN marine engines throughout South Florida, with locations in Miami and Fort Lauderdale and mobile service extending to the Bahamas, the Caribbean, and Central America.

About Scarano Marine: Scarano Marine is an authorized MAN and John Deere marine engine dealer based in South Florida, with locations in Miami and Fort Lauderdale. Founded by Adolfo Scarano, the company provides factory-certified marine diesel sales, service, warranty work, diagnostics, and genuine OEM parts to yacht owners, captains, and commercial operators throughout South Florida, the Bahamas, the Caribbean, and Central America.
