

# Nearly 200 Locations: Brakes Plus Expands with Custom Metal Canopies

*Texas sign company fabricated custom metal canopies for Brakes Plus, supporting its growth across DFW and surrounding markets.*

DALLAS, TX, UNITED STATES, August 28, 2026 /EINPresswire.com/ -- Brakes Plus, one of the country's growing automotive service brands with nearly 200 locations, continues expanding its presence across multiple markets.

Supporting that growth, Royal Signs & Awnings fabricated and installed [custom metal canopies](#) for a Brakes Plus development in collaboration with J.C. Curtis Construction Company.

“

Quality canopies and signage help growing brands create a consistent, professional presence across every location.”

*Morris, Business Development  
Manager at Royal Signs &  
Awnings*

Founded in 1990, Brakes Plus has grown from a single automotive service location into a large multi-state network offering brake services, oil changes, vehicle maintenance, diagnostics, tire services and other automotive repair solutions. With nearly 200 locations, the company represents the scale and consistency required from construction and exterior branding partners supporting multi-location growth.

The Brakes Plus project demonstrates how custom exterior elements can contribute to both the functionality and

visual identity of a commercial automotive facility. Royal Signs & Awnings provided custom metal canopies designed to complement the building while creating durable covered areas for the property.

## Supporting Multi-Location Commercial Growth

As national and regional brands continue expanding throughout DFW, Texas and surrounding markets, commercial properties require exterior solutions that can withstand everyday use while maintaining a consistent brand appearance.

Metal canopies are particularly valuable for automotive facilities, retail centers, restaurants, convenience stores and other high-traffic commercial properties. They can provide functional coverage while becoming an important part of a building's architectural and branded exterior.

For general contractors and developers, coordinating canopy fabrication and installation with an experienced commercial signage partner can help simplify project execution and maintain consistency from one location to the next.

**Brakes Plus Brings National Scale to the Project**  
Brakes Plus's continued expansion makes each new facility part of a larger national brand presence. Its nearly 200-location footprint demonstrates the type of growth that can generate opportunities for repeat construction, canopy fabrication and exterior signage programs.

The Oklahoma City project was completed in collaboration with J.C. Curtis Construction Company, a commercial construction contractor whose project portfolio includes Brakes Plus developments.

Public project information identifies the Oklahoma City facility as approximately 4,897 square feet on a 1.42-acre site, with project scope including canopies, awnings and signage.

Royal Signs & Awnings contributed custom metal canopy fabrication and installation to the project, working alongside the construction team to deliver a finished exterior component suited to the commercial facility.

**From Canopies to Complete Commercial Signage**  
While custom metal canopies were the focus of the Brakes Plus project, commercial developments often require a broader range of exterior branding solutions.

Metal Canopies installed for Brakes Plus

Canopies by Royal Signs & Awnings

Royal Signs & Awnings provides custom metal canopies, monument signs, pole and [pylon signs](#), commercial signage, awnings, channel letters, cabinet signs and other exterior branding solutions for commercial properties.

The company works with general contractors, developers, property owners and [multi-location brands](#) on individual construction projects as well as larger rollout programs.

This combination of fabrication and installation capabilities allows commercial construction teams to work with one experienced partner for multiple exterior signage and canopy requirements.

#### A Commercial Partner for DFW and Beyond

The DFW market continues to attract major commercial development, creating opportunities for contractors, developers and national brands seeking dependable fabrication and installation partners.

For projects involving new retail facilities, automotive service centers, restaurants, convenience stores, medical facilities and other commercial properties, custom canopies and highly visible exterior signage can play a major role in completing the property's finished appearance.

Royal Signs & Awnings is positioned to support these projects with custom fabrication, commercial signage expertise and installation capabilities throughout Texas and nationwide.

The Brakes Plus project represents another example of how specialized canopy fabrication can support the construction needs of recognizable brands while creating durable, functional and visually consistent commercial exteriors.

#### About Royal Signs & Awnings

Royal Signs & Awnings is a Texas-based commercial signage and exterior solutions company specializing in custom signage, metal and fabric awnings, canopies, monument signs, pole and pylon signs, channel letters, cabinet signs, interior branding and related installation services.

The company works with commercial property owners, developers, general contractors and national brands on individual projects and multi-location rollouts throughout Texas and across the United States.
