

Zion Outdoors Ranked on the 2026 Qualified Remodeler Top 500

AUSTIN, TX, UNITED STATES, August 31, 2026 /EINPresswire.com/ -- Zion Outdoors, a Texas-based outdoor living and hardscape company specializing in concrete resurfacing, decorative concrete, patios, pool decks, driveways and outdoor spaces, has been named to the 2026 Qualified Remodeler Top 500, ranking No. 289 nationally among the largest remodeling and home-improvement companies in the United States.

The recognition marks a significant milestone for Zion Outdoors and its founders, Jordan Winar and Lael Bryant.

“

Going from 501 to 289 in one year is a testament to our team, our customers and the systems we've built together. We're proud of how far we've come, but we see this as the beginning.”

Jordan Winar

Just one year ago, Zion Outdoors finished No. 501, narrowly missing the Qualified Remodeler Top 500 by a single position. In the year since, the company has more than doubled in size and moved from just outside the list to No. 289 in the nation.

For a company founded in 2023, the jump represents one of the most significant growth milestones in Zion Outdoors' young history.

From #501 to #289

The Qualified Remodeler Top 500 recognizes leading remodeling and home-improvement companies based on criteria including remodeling revenue, years in business, industry involvement, certifications, awards and community service.

Zion Outdoors' 2026 ranking places the company alongside some of the most recognized names in the American home-improvement industry, including Refloor, DaBella, Power Home Remodeling, Leaf Home, Window World and Great Day Improvements.

Refloor, for example, was recognized as No. 24 on Qualified Remodeler's 2026 HIP 200 list, demonstrating the scale of companies represented within Qualified Remodeler's national rankings. Qualified Remodeler also continues to feature companies such as DaBella and other major national home-improvement organizations throughout its coverage of the industry.

For Zion Outdoors, earning a place among these companies is particularly meaningful because of how recently the company began its current growth journey.

Building a Different Kind of Outdoor Remodeling Company

Zion Outdoors specializes in transforming existing outdoor spaces through Gem-Scape™, concrete resurfacing, decorative concrete, pavers, patios, pool decks, walkways, driveways and other outdoor living projects.

One of the company's signature innovations is Gem-Scape™, a proprietary concrete overlay system developed by Zion Outdoors. The system can transform existing concrete into custom patterns inspired by natural stone, brick, tile, travertine and flagstone without requiring the complete demolition and replacement of the existing surface.

Zion Outdoors has also continued investing heavily in its customer experience and product guarantees. In 2026, the company introduced its G.E.M. Lifetime Guarantee for qualifying residential Gem-Scape installations.

Today, the team has experience on more than 30,000 outdoor projects, according to Zion Outdoors, and continues to expand its presence throughout Texas.

"Growth is easy to celebrate, but growth without purpose isn't what we're after," said Bryant. "Our goal is to build one of the best outdoor remodeling companies in the country. That means taking care of homeowners, developing our people, creating better systems and continuing to innovate. The Top 500 recognition tells us we're moving in the right direction."

More Than a Ranking

For Zion Outdoors, the No. 289 ranking represents more than a number.

It represents the company's progression from No. 501 in 2024 to No. 289 in 2025, the growth of its team, thousands of homeowners served and the continued development of its proprietary Gem-Scape system.

It also provides an independent benchmark for Zion Outdoors against some of the largest remodeling and home-improvement organizations in the United States.

The company believes the recognition is especially significant because Zion Outdoors remains

focused on a specialized category: outdoor living and outdoor surface transformation.

“Our vision has always been bigger than concrete,” said Winar. “We want to change the way people think about their outdoor spaces and build a company that people are proud to work for and homeowners are proud to recommend.”

What's Next for Zion Outdoors?

While earning a place at No. 289 is a major accomplishment, Zion Outdoors isn't treating the recognition as the finish line.

The company plans to continue expanding its market presence, developing its people, investing in its proprietary products and improving the homeowner experience.

“Last year we were No. 501,” said Winar. “This year we're No. 289. Next year, we're going after an even bigger number.”

About Zion Outdoors

Zion Outdoors is a Texas-based outdoor living and remodeling company specializing in Gem-Scape™ concrete resurfacing, patios, pool decks, driveways, walkways, pavers and custom outdoor spaces. The company was founded by Lael Bryant and Jordan Winar with a mission to create exceptional outdoor spaces while building a culture centered on service, generosity, and professionalism.

Zion Outdoors' proprietary Gem-Scape™ system allows homeowners to transform existing concrete into customized stone-inspired surfaces without traditional tear-out and replacement. The company serves homeowners throughout Texas and continues to expand its operations.
