

Pegmatis to Exhibit and Present Deep Tech Award to Healthcare Startup at Brampton Venture Expo (BVX) 2026

Hardware, software & firmware development firm Pegmatis will exhibit at BVX 2026 and sponsor the Mitacs Health Innovation Showcase.

BRAMPTON, CANADA, August 31, 2026

/EINPresswire.com/ -- Pegmatis, a premier end-to-end hardware, software, and firmware product development firm, today announced its active participation in the upcoming [Brampton Venture Expo](#) (BVX) on September 10, 2026 at the Rose Theater in Brampton, Ontario. As a key sponsor and exhibitor, Pegmatis will be welcoming attendees in the main lobby at the entrance and

presenting a major prize during the event's flagship Mitacs Health Innovation Showcase pitch competition.

“

Pegmatis is committed to empowering ambitious healthcare startups in the region by supporting the BVZ Launch cohort of top innovators.”

*Ed Becze, Managing Partner
and CEO at Pegmatis*

As entrepreneurs, investors, and ecosystem leaders gather for the Brampton Venture Expo, Pegmatis will showcase its expertise in taking complex technologies from early concept to full-scale manufacturing. Attendees entering the venue will find the Pegmatis team positioned prominently at the entrance, ready to answer questions about product design, engineering, artificial intelligence, and Design for Manufacturability (DFM).

In addition to exhibiting, Pegmatis is a sponsor of the Mitacs Health Innovation Showcase pitch competition. During this event, the top five startups from the Brampton Venture Zone (BVZ) cohort will pitch their early-stage companies to a panel of judges and the BVX audience. These startups are competing for up to \$70,000 in total prize funding. Pegmatis will award the winner \$15,000 worth of elite product development work. This prize is designed to help an emerging healthcare startup accelerate their product roadmap, overcome critical hardware or software bottlenecks, and bring life-changing technologies closer to commercialization.

"Navigating early-stage product development, especially in a highly regulated sector like healthtech, requires technical precision and deep experience," said Ed Becze, Managing Partner

and CEO at Pegmatis. "Pegmatis is committed to empowering ambitious healthcare startups in the region by supporting the BVZ Launch cohort of top innovators. Giving the winning pitch \$15,000 in dedicated engineering support means providing a promising healthcare startup with the actual technical horsepower needed to de-risk their technology and build investor confidence."

Startup founders, investors, and industry executives attending BVX 2026 are invited to meet with the Pegmatis leadership team at the Main Lobby throughout the event.

About Pegmatis

Pegmatis is a product development firm specializing in hardware, software, and firmware development for complex products and regulated industries. Founded in 2016 from an elite design center within a Fortune 500 company, Pegmatis brings decades of product development experience to every engagement. Its multidisciplinary team combines high-fidelity design, cost-driven architecture, connected technologies, and manufacturing support to identify and mitigate risk throughout the development process. From early-stage concepts through production, Pegmatis helps companies turn complex ideas into reliable, manufacturable products ready for market.
