

Recovery Beach Named Among Newsweek's Best Addiction Treatment Centers 2026

Recovery Beach recognized by Newsweek for excellence in addiction treatment and mental health services.

GARDEN GROVE, CA, UNITED STATES, August 31, 2026 /EINPresswire.com/ -- GARDEN GROVE, Calif., August 28, 2026

— Recovery Beach is proud to announce it has been named to Newsweek's prestigious list of [America's Best Residential Addiction Treatment Centers 2026](#). This highly competitive national ranking awards the top addiction treatment facilities in the U.S. and is presented by Newsweek and Statista Inc., a leading statistics portal and industry ranking provider.

The recognition comes as Recovery Beach celebrates more than 30 years of treating substance use disorders and co-occurring mental health conditions in Orange County, continuing its longstanding commitment to compassionate, evidence-based care.

"We're incredibly honored to be recognized by Newsweek as a top addiction treatment provider, not just in California, but nationwide," said Greg Goushian, Vice President of Operations at Recovery Beach. "This honor belongs to our entire team, from the clinicians and nurses to the admissions staff and support team members who show up every day with compassion, professionalism, and a deep commitment to our clients."

The America's Best Addiction Treatment Centers 2026 award list was published on Newsweek's

Recovery Beach

website on August 13th, and the recognition will be published in Newsweek's print magazine on September 4th.

About Newsweek's 2026 Recognition

According to the 2026 ranking methodology, Newsweek's list focused specifically on inpatient, residential, and long-term addiction treatment centers. Long-term programs were required to have a minimum residency of 30 days, and facilities providing only outpatient or short-term addiction treatment services were excluded from the ranking.

The rankings were based on four data sources:

A national online survey measuring reputation among medical professionals, managers, and addiction treatment leaders

Credentials, certifications, and licenses provided by the Substance Abuse and Mental Health Services Administration (SAMHSA)

Care services data from SAMHSA

Patient review data from leading review platforms and Google Reviews

Facilities recognized on the list represent top-performing residential addiction treatment centers within their respective states or regions.

A Monumental Year for Recovery Beach

For the Recovery Beach team, Newsweek's 2026 recognition is exceptionally meaningful. It serves as a reflection of a commitment to excellent care in a structured, supportive environment that specializes in medical detox, residential and dual-diagnosis treatment, evidence-based therapy, medication management, and holistic recovery services.

The award also comes on the heels of a major renovation that transformed Recovery Beach into a luxury treatment center. The newly elevated treatment environment now offers top-of-the-line upgrades like private rooms, welcoming clinical spaces, chef-prepared meals, outdoor gathering areas, and amenities that support healing, reflection, and connection.

"Every day, we work to provide the highest level of care by meeting our clients with the clinical skill, dignity, and real human support they deserve," said Goushian. "Being recognized as one of the best in the industry highlights the remarkable care our team of professionals delivers every day and the success of our patients, who are the inspiration for our work. We will continue to uphold this standard of excellence as we help more people find lasting recovery."

As addiction, overdose risks, and co-occurring mental health challenges continue to affect communities across the country, access to high-quality residential treatment is essential. Recovery Beach remains committed to providing safe, compassionate, and individualized addiction treatment for people who are ready to take the next step.
