

G2 users rank Skillable no. 1 across Virtual IT Labs, Enterprise and Mid-Market categories in Fall 2026 report

Skillable is ranked 1 among all Virtual IT Labs vendors overall and holds the top position in the Enterprise and Mid-Market segments of G2's Fall 2026 reports.

NEW PORT RICHEY, FL, UNITED STATES, August 31, 2026 /EINPresswire.com/ -- [Skillable](#), the pioneer in performance-based learning and skill validation, has been named a Leader in G2's Fall 2026 Virtual IT Labs report for the 21st consecutive quarter. Based on verified customer reviews, Skillable was ranked the #1 vendor overall in the Virtual IT Labs category and secured the top position in both the Enterprise and Mid-Market segments.

“

G2 rankings are especially meaningful because they reflect the experiences and outcomes of our customers. We're proud that G2 reviewers continue to recognize Skillable for helping learners...”

Sarah Noe-Danzl, Chief Marketing Officer at Skillable

In addition to its Leader recognition, Skillable earned the Best Relationship and Users Love Us badges, reflecting the platform's ability to deliver exceptional customer experiences and measurable business impact. As G2 rankings are based entirely on verified user feedback, the

recognition highlights the value organizations continue to see from hands-on training experiences that help learners build, practice and validate real-world skills.

Recent reviews praised Skillable's ability to move learners beyond theory and into real-world application. One G2 reviewer described the platform as providing "real practical experience instead of dry theory," highlighting the stability of browser-based labs, intuitive user experience and immediate feedback. Another reviewer noted that "the ability to work in a real, sandboxed environment rather than just watching videos or reading documentation is incredibly helpful for retention."

A third G2 reviewer emphasized Skillable's ability to combine instructor guidance, learning materials and hands-on practice to create an engaging training environment that builds learner confidence and improves outcomes, stating that, "Skillable provides a virtual real time experience for students to get hands on practice with the software they wish to learn... Adults

learn better if they can follow a book, hear the instructor and practice hands on training. The success rate is far better for individuals who can do all three of the above learning methods. Skillable provides that type of atmosphere."

"G2 rankings are especially meaningful because they reflect the experiences and outcomes of our customers," said Sarah Noe-Danzl, Chief Marketing Officer at Skillable. "As organizations place greater emphasis on measurable skill development, hands-on practice has become essential. We're proud that G2 reviewers continue to recognize Skillable for helping learners build confidence, demonstrate proficiency and apply skills in real-world environments."

The Fall 2026 rankings continue Skillable's momentum as organizations increasingly seek ways to move beyond knowledge-based training and verify that learners can apply skills in realistic environments. From customer education and partner enablement to technical training and certification programs, organizations rely on Skillable to deliver scalable hands-on experiences that improve engagement, retention and performance.
